COTTON PRESS RETURN.

No. 17 of 1917-18.

PREFATORY NOTE.

The Cotton Season, 1917-18.

The yield of the cotton crop of 1917-18 was estimated in February, 1918, at 4,035,000 bales on an area of 24,781,000 acres, as compared with 4,489,000 bales on an area of 21,745,000 acres, the revised final figures of the preceding year. There was a decrease of 10 per cent in outturn. There were 1,155,000 bales of cotton pressed in the pressing factories, and 386,000 bales of unpressed cotton received in the spinning mills, from 1st September, 1917, to 15th May, 1918, as against 1,726,000 bales and 363,000 bales, respectively, during the corresponding period of last year, showing a decrease of 33 per cent in the case of presses, but an increase of 6 per cent in the case of mills. Too much stress should not be laid on the accuracy of these returns as a means of checking the forecast estimates of outturn, as there is at present no system in vogue of furnishing complete returns from all presses and mills. The figures for the Native States of Hyderabad, Central India, Rajputana, and Mysore are, as will be seen from the footnotes to the tables, mostly incomplete and have been excluded from this comparison.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Simla, the 25th July, 1918.

No. 33.—Whereas by Resolution passed by the Secretary of State for India in Council on the eighth day of November, 1887, the provisions of section 1 of the Government of India Act, 1870 (33 and 34 Vict., Cap. 3), were declared applicable to the territories for the time being under the administration of the Chief Commissioner in British Baluchistan, inclusive of the tracts known as Pishin, Shorarud, Kach, Kawas, Harnai, Sibi and Thal Chotiali, from the 1st day of November, 1887;

And whereas the said provisions were repealed and re-enacted by the Government of India Act, 1915 (5 and 6, Geo. V, Cap. 61);

And whereas the said Chief Commissioner has proposed to the Governor General in Council a draft of the following Regulation, together with the reasons for proposing the same;

And whereas the Governor General in Council has taken the draft and reasons into consideration, and has approved of the draft, and the same has received the Governor General's assent on the 24th day of July, 1918;

In pursuance of the direction contained in section 71 (2) of the Government of India Act, 1915, the said Regulation is now published in the Gazette of India.

A Regulation to provide for the appointment of an Additional Judicial Commissioner in British Baluchistan and for other purposes.

WHEREAS it is expedient to provide for the appointment of an Additional Judicial Commissioner in British Baluchistan and for other purposes; It is hereby enacted as follows:—

Short title.

1. This Regulation may be called the British Baluchistan Courts Regulation, 1918.

Appointment of Additional Judicial Commissioner.

2. The Chief Commissioner, with the previous sanction of the Governor General in Council, may, by notification in the official Gazette, appoint such person as he thinks fit to be an Additional Judicial Commissioner, and to exercise jurisdiction, as such Additional Judicial Commissioner, in the court of the Judicial Commissioner of British Baluchistan.

Jurisdiction of Additional Judicial Commissioner.

3. (*1*) Subject to the other provisions of this Regulation, an Additional Judicial Commissioner shall exercise the same jurisdiction as the Judicial Commissioner may exercise under any enactment for the time being in force, but only in such cases as the Judicial Commissioner may direct.

(*2*) The Judicial Commissioner may transfer any case, whether the hearing has or has not commenced, from the file of an Additional Judicial Commissioner to his own file.

Law applicable to the Additional Judicial Commissioner.

4. Subject to the other provisions of this Regulation, every enactment for the time being applicable to the Judicial Commissioner shall apply to an Additional Judicial Commissioner when exercising any jurisdiction under this Regulation as if he were the Judicial Commissioner.

Appeals in certain cases.

5. Notwithstanding anything in any other enactment for the time being in force, where an appeal is preferred from a decree, judgment or order passed by the Judicial Commissioner or an Additional Judicial Commissioner in any other capacity or in a case in which such authority is a party or personally interested, the appeal shall be heard by an Additional Judicial Commissioner or the Judicial Commissioner, as the case may be.

No. 1703.—The Governor-General in Council is pleased to sanction the grant of the following rewards for acts of gallantry or devotion to duty in the field :—

Awarded the Indian Order of Merit, 2nd class.

68 Sowar Uttam Singh, Rifles.

He displayed great personal gallantry on the 27th January 1918 during an attack by the Burma Mounted Rifles against the Meshedi Jani Khan Arab tribe. Sowar Uttam Singh was one of a pair of scouts on the outer flank of the attack, among some low ridges. The scouts were attacked by a body of Arabs who greatly outnumbered them and Sowar Bagh Singh was killed at short range. Sowar Uttam Singh picked up his comrade's body and tried to carry it off under heavy fire, but was shot through the shoulder at a range of 10 yards. Putting down his comrade's body he attacked his assailants with the bayonet, fought his way through and rejoined his troop. In spite of his wound he continued to fight with his troop, and rode back with it 15 miles to camp at the end of the day.

Awarded a Bar to the Indian Distinguished Service Medal.

Risaldar Farman Ali Khan, Rifles.
Jemadar Partab Singh, Rifles.

Department Notification No. 461, dated the 27th March 1917, as subsequently amended, namely :—

1. For rule 31 the following rule shall be substituted, namely :—

"31 (1) For the purposes of these rules there shall be two kinds of Courts-martial, namely :—

Courts-martial.

(a) a general court-martial, and

(b) a regimental court-martial.

(2). Officers of whatever rank of His Majesty's Regular or Territorial Forces or of the Indian Defence Force shall be eligible to serve on courts-martial.

(3). An officer shall be disqualified for serving on a court-martial if he—

(a) Is the officer who convened the court; or

(b) Is the prosecutor or a witness for the prosecution; or

(c) Investigated the charges before trial, or took down the summary of evidence, or was a member of a court of inquiry respecting the matters on which the charges against the accused are founded, or was the company, etc., commander who made preliminary inquiry into the case; or

(d) Is the commanding officer of the accused, or of the corps or unit to which the accused belongs; or

(e) Has a personal interest in the case.

(4). The President of a court-martial shall be named by the convening officer."

2. For sub-rule (2) of rule 32 the following sub-rules shall be substituted, namely:—

"(2) A general court-martial shall consist of not less than five officers. The President of such Court shall not be below the rank of field officer.

(3) It shall not be necessary to appoint a Judge Advocate at a general court-martial but the Commander-in-Chief in India may, if he considers it expedient to do so, appoint, or authorise the appointment of, a Judge Advocate at any general court-martial. An officer who is disqualified for serving on a court-martial shall be disqualified for acting as Judge Advocate at the court-martial."

3. For rule 33 the following rule shall be substituted, namely :—

"33 (1) A regimental court-martial may be convened by an officer authorised by or in pursuance of these rules to convene a general court-martial or by the officer commanding the brigade, corps or unit in which the person accused is for the time being serving. Provided that an officer authorised to convene a general court-martial shall not convene a regimental court-martial for the trial of a person not for the time being under his command.

Convening and constitution of regimental courts-martial.

(2) A regimental court-martial shall consist of not less than three officers, of whom two shall ordinarily be officers of the Indian Defence Force."

4. For sub-rule (2) of rule 37 the following sub-rule shall be substituted, namely :—

"(2) The findings and sentences of regimental courts-martial may be confirmed by the officer commanding the brigade within which the trial was held or by an officer authorised by or in pursuance of these rules to convene a general court martial."

5. In Schedule II, in sub-clause (f) of clause 1, for the words "an officer or non-commissioned officer" the words "an officer, warrant officer or non-commissioned officer" shall be substituted.

There were 1,001 deaths from plague recorded during the week ending July 13, an increase of 13 over the previous week's total, but 615 less than the total for the corresponding week of 1917. July is the month of minimum plague incidence in India: the mean July plague mortality of the last twenty years is 5,934. The only districts in India in which there is an undue prevalence of plague are Bellary in Madras and Basti in the United Provinces. Elsewhere the plague outlook is favourable. Rajputana which suffered so severely in the recent epidemic, is now free from infection. The usual July increase in plague mortality in Rangoon is once more in evidence: no explanation of this constantly recurring phenomenon has been adduced; conditions of climate now prevailing in Rangoon do not appear to be favourable to the spread of plague.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 20th July 1918.

Burma.—The rainfall during the week was general throughout the Province. The fall was good on the Arakan coast and in the northern districts of Upper Burma, moderate in the remaining districts and in Lower Burma and poor in the dry zone. Agricultural operations for the cultivation of winter rice are proceeding normally in Lower Burma and in irrigated tracts of Upper Burma. Sowing of cotton, sesamum, groundnut and *juar* still continues. Standing crops are generally in good condition. Livestock is generally healthy. The price of unhusked rice has risen slightly but is still below normal. The market for white rice is steady at Rs. 232 annas 8 per hundred baskets for specials.

Assam.—The weather during the week was very rainy and generally cloudy. Heavy rains and floods have hampered agricultural operations and have damaged paddy crops in most places. Harvesting of autumn rice, manufacture of tea and sowing and transplanting of winter rice continue. Cattle disease is reported from seven districts. The rise in the price of common rice continues.

Bengal.—Heavy rain fell in some of the northern and eastern Bengal districts. The fall was generally light to moderate elsewhere. Transplantation of winter rice is proceeding. More rain is wanted for the operation in the Burdwan division. Jute and autumn paddy on low lands of eastern Bengal have suffered considerably from excessive rainfall and from abnormal rise of rivers. Prospects of standing crops are reported to be fair on the whole, The price of common rice has risen slightly.

Bihar and Orissa.—During the week rain fell in most districts but it was generally light, scattered and insufficient. The weather is unseasonable. More rain is urgently wanted for the transplantation of winter paddy and for autumn crops which are suffering in several districts. The price of common rice has risen in twelve districts, fallen in one and remained stationary in the remaining districts as compared with that of the preceding week. Cattle disease is reported from sixteen districts. The condition of standing crops in the Feudatory States of Orissa is good. Rain is wanted in some States for the transplantation of paddy.

United Provinces.—With the exception of light showers in a few districts the week was practically rainless, More rain is badly needed almost everywhere. Preparation of lands for autumn and spring crops and sowing of spring crops generally continue but the operations have been retarded in a number of districts for want of rain. Irrigation of autumn crops and sugarcane is going on in places. Standing crops are withering in most districts from drought and slight damage to crops is reported by floods, in the districts of Budaun, Bahraich and Gorakhpur. Prospects are, at present, unfavourable but depend mostly on future rains. The condition of agricultural stock is good, though cattle disease is prevalent in a number of districts. Water and market supplies are sufficient. Fodder though dear in places is available in sufficient quantities. Prices are rising.

Punjab.—Light rain was received in parts of the southeast and in a few western districts it proved beneficial but more is urgently wanted everywhere especially in unirrigated areas. Cotton and other autumn crops are being sown. The area sown is below normal to normal. The condition of standing autumn crops is generally fairly good so far, but in some southeastern districts unirrigated crops have begun to suffer from drought. Harvesting of extra spring crops continues with yield normal. Cattle are healthy and fodder and water are generally sufficient. Prices are gradually rising and range generally between warning and scarcity rates. Price of wheat:—Rawalpindi 7¼, Lahore 8, Lyallpur 8½, Ambala and Ferozepore 8¾ seers per rupee.

North-West Frontier Province.—During the week rain fell in one district. More rain is badly needed throughout the Province. Sowings of certain autumn crops are proceeding normally. The condition of standing crops is generally average. The yield of wheat and extra spring crops is also average. Wheat is selling in Peshawar at 9¼ and in Dera Ismail Khan at 11¼ seers per rupee.

Jammu.—Rain fell in some parts. Prices are stationary.

Kashmir.—The weather was generally dry and hot. Standing crops are in fair condition. Cattle are generally healthy. Prices are high.

Rajputana.—The weather during the week was generally rainless. Lack of rain has retarded agricultural operations. Cattle are in fair condition. Fodder and water are sufficient. Prices are rising.

Central India.—The rainfall during the week was partial and insufficient. Sowing of autumn crops is in progress except in Malwa and in the Southern States where it has been suspended for want of rain. Lands are being prepared for spring crops in Malwa and in the Southern States. Agricultural stock is in fair to good condition except in the Dhar pargana where cattle are dying for want of fodder. Scarcity of fodder prevails in Gwalior. Prices are high.

Central Provinces.—The weather is warm but occasionally cloudy with some prospects of early rain. Damoh, Seoni, Nagpur, Drug and Yeotmal had over 50 cents of rain during the week. On account of prolonged drought sowings of autumn crops and transplantation of rice have been retarded in nine districts and the latest sown crops are suffering slightly in parts of the Saugor and Damoh districts and the Nerbudda and Berar divisions. More rain is needed immediately all over the Provinces. Preparation of land for the sowing of spring crops is in progress. Fodder continues to be dear or scarce in parts of Saugor, Narsinghpur, Hoshangabad, Nimar and Buldana. Cattle are generally in good condition except in Saugor and Betul. Fluctuations in prices are irregular.

Feudatory States:—Sowing of paddy continues. More rain is required everywhere.

Bombay.—No rain fell during the week in the Panch Mahals, Ahmednagar, Nasik, Sholapur, Satara, Bijapur, Cutch, Palanpur, Mahi Kantha, Rewa Kantha and five districts of Sind. There were very slight falls in Sukkur, the Upper Sind Frontier, the Konkan, other districts of Gujarat, the Deccan, the Karnatak and in Kathiawar, Baroda, Savantwadi and Kolhapur More rain is urgently needed everywhere for autumn operations. Sowing has been generally retarded. Transplantation has been retarded in the Konkan, Poona, Surat, Ahmedabad and Larkana. Germinated seedlings have been damaged slightly by insects in parts of Thar and Parkar and by insects and winds in parts of Nawabshah and are withering in parts of Gujarat, the Konkan, the Deccan and the Karnatak. Agricultural stock is generally sufficient Prices of foodgrains are generally steady.

Hyderabad.—The rainfall during the week was very scanty. The average fall was 6 cents. Sowing of autumn crops have been suspended in many places and sprouts are withering for lack of rain. Lands are being prepared and sown for early rice. Cattle are healthy. Prices of grains are abnormally high. Juar is selling at 3¾ seers per rupee in Gulbarga.

Mysore.—The week was slightly wet. Ploughing and sowing operations are in progress. Standing crops are in fair condition. Harvesting of paddy and sugarcane is proceeding with outturn fair. Cattle are generally healthy. Prices are fluctuating.

Coorg.—The weather is dry. Rain is urgently wanted. Ploughing and transplanting continue. Cattle disease prevails in some villages. Water and fodder are sufficient. The public health is fair. Prices of food grains are high.

Madras.—The week was slightly showery except in the Deccan. Standing crops are in fair to good condition generally. Harvesting of paddy, sugarcane and dry crops is proceeding with outturn fair to normal generally. Sowings of paddy, sugarcane and dry crops are proceeding normally. The condition of cattle is generally good. Water is in sufficient in the greater portion of the Presidency. Prices continue to show a slight inclination to rise.

NOTICES.

THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2. *Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. These should be consulted before an application is made to the Controller.

3. *Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India applications should be made to the patent offices in the countries concerned.

4. *Fees* are payable in *cash* and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

5. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with *pictures, photographs, etc.*, for which copyright is obtainable under the Indian Copyright Act, 1914.

6. *Printed Specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

GOVERNMENT OF BENGAL, REVENUE DEPARTMENT.
Land Acquisition Branch.

Calcutta, the 24th July 1918.

No. 6107.—The following agreement made under section 41 of the Land Acquisition Act, I of 1894, is published for general information.

STAMP Eight annas.

Memorandum of agreement made this 22nd day of July 1918 between the Burma Oil Company Limited a Joint Stock Company with limited liability incorporated under the English Companies Act and having its registered office at Glasgow in Scotland (hereinafter called the Company) of the one part and the Secretary of State for India in Council (hereinafter called the Secretary of State) of the other part.

Whereas for the purpose of erecting additional cooly lines in their Oil Installation the Company has applied to the Government of Bengal for the acquisition under the provisions of the Land Acquisition Act, 1894, of the piece or parcel of land containing ·48 acre or thereabouts situate in the village of Nalsa in the district of Chittagong and more particularly described in the schedule hereto and delineated in the plan* hereunto annexed.

And whereas the said Government of Bengal, being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public, has consented to acquire on behalf of the Company the piece or parcel of land hereinbefore described.

* Not printed and published herewith, but may be inspected in the office of the Collector of Chittagong.

And whereas the said Government of Bengal has required the Company under the provisions of section 41 of the abovementioned Act to enter into the agreement with the Secretary of State hereinafter contained. Now this Indenture witnesseth that it is hereby agreed and declared as follows :—

1. On demand the Company shall and will pay to the said Government of Bengal all and every compensation in respect of the said land tendered, paid or awarded or to be tendered, paid or awarded, by the Collector under the Land Acquisition Act, 1894, or by the Court to which a reference under part III of the said Act may be made, or by the Court or Courts to which an appeal from the award of the said Court may be preferred and all costs, charges and expenses of the proceedings in the aforesaid Courts, or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

2. On demand made by the said Collector the obligations of the Company under the last preceding clause not being thereby limited, the Company shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Collector may in anticipation estimate to be necessary for purposes mentioned in the last preceding clause.

3. On payment by the Company of all demands under the foregoing first clause, or, in the discretion of the said Government of Bengal (on deposit by the Company of all estimated amounts as provided in the 2nd clause) but not before possession shall have been taken under the provisions of the above-mentioned Act, the Secretary of State shall make over possession of the said land to the Company and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the Company.

4. The said land shall be held by the Company for the purposes of such erecting of additional cooly lines as is hereinbefore mentioned and without the sanction in writing of the said Government of Bengal first had and obtained for no other purpose whatsoever.

5. The said erection of additional cooly lines shall be completed within one year from the date on which possession of the said land shall have been given to the Company.

6. Should the said erection of additional cooly lines not be completed within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal, or should the said land at any time thereafter cease for a period of 12 consecutive months, to be held, and used, or cease to be required for the purpose or purposes provided for in the foregoing fourth clause, then and in any such case, the said Government may summarily re-enter upon and take possession of the said land and thereupon the interest of the Company in the said land shall absolutely cease and determine.

7. On taking such possession the said Government may sell or otherwise deal with the said land as it may think proper; should the said Government sell the said land, the said Government after deducting the expenses incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the Company. Should the said Government, on taking possession, decide not to sell the land, it shall repay to the Company all sums received from the Company in respect of all and every compensation as provided in the foregoing first clause (less the Statutory allowance of 15 per cent.), but will not repay any sums paid and received on account of costs, charges and expenses.

8. Should any dispute or difference arise touching or concerning the subject matter of this agreement or any covenant clause or thing herein contained the same shall be referred to the said Government of Bengal and the opinion and decision of the said Government upon such dispute or difference shall be final and conclusive and binding on the parties hereto.

In witness whereof E. A. Martin, Manager for the time being of Messrs. Bulloch Brothers & Co., Ltd., Chittagong, the duly constituted attorney of the Burmah Oil Coy. Ltd., and the Secretary of State for India in Council have hereunto set their respective hands and seals.

TRADE BY PROVINCES.

The total imports and exports, including re-exports, of private merchandise into and from the several maritime provinces during the month of June, 1918, as compared with those of May, 1918, are stated below :—

	IMPORTS		EXPORTS, INCLUDING RE-EXPORTS	
	May, 1918	June, 1918	May, 1918	June, 1918
	R (lakhs)	R (lakhs)	R (lakhs)	R (lakhs)

Burma	73	99	2,63	2,40
Total	10,02	14,45	19,66	20,40

Under imports, Sind showed an increase of 188 per cent, Bengal of 49 per cent, Bombay of 39 per cent, Madras of 5 per cent, and Burma of 36 per cent. Under exports, Bombay showed an increase of 37 per cent, Sind of 11 per cent, and Madras of 3 per cent, while Burma showed a decrease of 9 per cent, and Bengal of 10 per cent. These comparisons are with the preceding month (May, 1918).

BALANCE OF TRADE.

The following table takes into account the imports and exports of merchandise on private account only.

Average rate of exchange	d. 16·172	d. 18·00(a)

In the three months ended June, 1918, the excess of exports over imports of private merchandise was R18,92 lakhs, as against R 25,98 lakhs in the corresponding period of 1917 and R23,26 lakhs in 1914. As the publication of treasure figures has been temporarily discontinued, it is not possible to give here the net (private) exports from April to June, nor the net balance of trade in the same period. It may, however, be of interest to note that the net (private) exports are below those of 1917, but higher than those of 1916. The balance of trade, so far as shown by the statistics of merchandise, treasure, Council Bills, and enfaced Rupee paper, in the three months ending June, 1918, was in favour of India, though not to so large an extent as in the corresponding period of 1917 and 1916.

* Temporarily discontinued.
† Exclusive of Government transactions (other than articles of national importance in the case of exports).
(a) Approximate rate for Telegraphic Transfers.

The amount of Council Bills and Telegraphic Transfers paid in India in the three months ended June, 1918, was R15,42 lakhs, of which about R13,92 lakhs were paid through the Paper Currency Reserve and R1,50 lakhs through the Treasuries. In the three months ended June, 1917, the amount was about R16,22 lakhs, of which about R1,36 lakhs were paid through the Gold Standard Reserve, R11,03 lakhs through the Paper Currency Reserve, and R 3,83 lakhs through the Treasuries. In the three months ended June, 1916, the amount of Council Bills paid was about R5,94 lakhs. As regards enfaced Rupee Paper, R6,300 represented the amount of paper enfaced to London and R4½ lakhs the amount re-transferred from London, in the three months April to June, 1918, while in the corresponding period of 1917, R45,200 represented the amount of paper enfaced to London and over R35 lakhs the amount re-transferred from London.

Declared value per unit of selected articles.

The declared value per unit of certain selected articles imported and exported during June, 1914, 1917, and 1918, are noted below :—

The customs duty figures are an index to the volume of the import trade only, since under exports jute, rice, and tea only are subject to duty. In the three months ended June, 1918, the import duties increased to about R2,89½ lakhs from nearly R2,44½ lakhs in the three months ended June, 1917, and the export duties rose to over R83 lakhs from R52 lakhs. The grand total of gross Indian sea and land customs revenue (excluding salt revenue) in the three months, April to June, 1918, amounted to over R4,21 lakhs, as compared with over R3,17 lakhs in the same period of last year.

RAILWAY STATISTICS.

Railway statistics, like the import and export statistics above, are a valuable index to the general movement of trade throughout the country, and show that the earnings from 1st April to 29th June, 1918, were R20,94 lakhs, as against R19,74 lakhs in the corresponding period of 1917, or an increase of R1,20 lakhs.

TRADE OF ADEN.

The grand total value of the imports and exports of merchandise, by sea, into and from the port of Aden amounted to over R97 lakhs in the month of May, 1918, and R2,67 lakhs in the two months April and May, 1918. The value of the principal articles of imports and exports was as follows:—

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 1st August 1918, based on the Indian Daily Weather Reports of the period.

1. A depression formed at the head of the Bay and moved in a west northwesterly direction into the north of the Central Provinces where it disappeared. It occasioned widespread rain in the Peninsula and the central parts of the country, and some heavy falls were recorded in the Central Provinces. The Bay monsoon current was weak and gave very little rain outside of Burma and northeast India.

2. *Burma.*—Rainfall was nearly general every day in Lower Burma. Local falls were reported from Upper Burma.

Northeast India, including Orissa.—Nearly general rain fell in Bengal on the 28th, 29th and 30th, in Orissa from the 28th to the 29th, and in Chota Nagpur on the 27th, 28th and 29th. There were local falls in Assam and Bihar.

The United Provinces, Central India and the Central Provinces.—Rain fell at nearly every station in the Central Provinces on the 28th, 29th, 30th and 31st, and in Central India on the 30th and 31st. A few falls occurred in the United Provinces.

Northwest India.—Rainfall was reported from a few stations in Kashmir, the Punjab, the North-West Frontier Province and Rajputana East.

The Peninsula.—There was nearly general rain on the west coast on the 28th, 29th and 31st, in Hyderabad on the 28th and 29th, in the Madras Deccan on the 28th, and on the north Madras coast on the 27th and 28th.

3. The chief amounts of rainfall reported were as follows:—

July 25th. Table Island 2·53″, Mergui 3·10″, Tavoy 2·69″, Lucknow 1·60″, Simla 1·75″, Ludhiana 0·55″ and Montgomery 0·50″.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 27th July 1918.

Burma.—The rainfall during the week was general throughout the Province. The fall was heavy in Arakan and Tenasserim and moderate elsewhere except in the dry zone where it was light. Ploughing for and sowing and transplanting of winter rice are progressing satisfactorily in Lower Burma, and in irrigated tracts of Upper Burma. Cultivation of cotton, groundnut, sesamum, *juar* and maize are proceeding normally. Standing crops are in good condition. Cattle are healthy. The price of unhusked rice has risen slightly but is still below normal. The market for white rice is steady at Rs. 240 per hundred baskets for specials.

Assam.—The weather during the week was wet and generally favourable. Floods are decreasing but continue to hamper agricultural operations and to cause damage to standing crops in most of the plains districts. Harvesting of autumn rice, manufacture of tea and sowing and transplanting of winter rice continue. Cattle disease is reported from nine districts. The price of common rice is rising.

Bengal.—Moderate to heavy rain fell nearly all over the Province. In some of the western districts more rain is wanted for the transplantation of winter paddy seedlings. Flood water in eastern Bengal is slowly subsiding. Jute is being harvested in eastern Bengal but in western Bengal weeding is still in progress, though in some places the crop is about to be harvested. The condition and prospects of jute and other autumn crops are fair and those of winter rice are promising. The average price of common rice has risen slightly

Bihar and Orissa.—The rainfall during the week was fairly general over the Province. It was moderate in Orissa and light elsewhere except in Puri where it is believed to have been exceedingly heavy. The recent rainfall has improved prospects in Orissa but more rain is wanted in Bihar and Chota Nagpur for transplantation of paddy and for autumn crops which are withering in several districts of Bihar, especially in the Patna division. The price of common rice shows a tendency to rise. Cattle disease is reported from most districts. Transplantation of paddy and standing crops is being affected by want of rain in the Feudatory States of Orissa.

United Provinces.—Report not received.

Punjab.—Report not received.

North-West Frontier Province.—Rain fell in parts of the Province. More is urgently needed especially for unirrigated areas in one district where the condition of standing crops is reported below average. Sowings of certain autumn crops are proceeding normally. The yield of extra spring crops is average. Wheat is selling in Peshawar at 9¾ and in Dera Ismail Khan at 10½ seers per rupee.

Jammu.—The rainfall during the week was general though slight. Prices are stationary.

Kashmir.—Report not received.

Rajputana.—The weather during the week was generally rainless. Lack of rain has retarded agricultural operations. Cattle are in fair condition. Water is sufficient. Fodder is getting scarce. Prices are rising.

Central India.—The rainfall during the week was partial but insufficient. Sowing of autumn crops has been suspended for want of rain. Standing crops are withering. Agricultural stock is in fair to good condition. Scarcity of fodder prevails in Gwalior, Indore and Bundelkhand. Prices are high.

Central Provinces.—The weather has been cloudy. Light showers were received in Nimar, Akola and Buldana not exceeding 63 cents. In the remaining districts moderate to heavy rain fell, the heaviest rainfall registered at headquarters being 9 inches in Raipur. This rainfall has been most opportune and will improve the condition of autumn crops immensely. Prospects at present are on the whole favourable. More rain is still wanted in the west of Berar, in the districts of Nimar and Hoshangabad and in the north of the Jubbulpore division. In the latter the sowing of autumn crops has been seriously delayed but the continuation of the present rain appears probable and at present there is no cause for anxiety. The supply of fodder is generally adequate except in parts of certain districts. Prices remained steady or fluctuated slightly.

Feudatory States :—There was good rain in the States. Crops are faring well.

Bombay.—Report not received.

Hyderabad.—Report not received.

Mysore.—Report not received.

Coorg.—Report not received.

Madras.—The week was slightly showery except in the Deccan. Standing crops are in fair to good condition generally. Harvesting of paddy, sugarcane and dry crops is proceeding with outturn fair to normal generally. Sowings of paddy, sugarcane and dry crops are proceeding normally. The condition of cattle is generally good. Water is still insufficient in the greater portion of the Presidency.

NOTICES.

THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2. *Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. These should be consulted before an application is made to the Controller.

3. *Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India applications should be made to the patent offices in the countries concerned.

4. *Fees* are payable in *cash* and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

5. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in

British India for their registration. Neither does this Act deal with *pictures, photographs, etc.*, for which copyright is obtainable under the Indian Copyright Act, 1914.

6. *Printed Specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

ORDERS BY THE HON'BLE THE CHIEF COMMISSIONER, AJMER-MERWARA.

NOTIFICATIONS.

A. G. G.'s Camp, Rajputana, the 17th July 1918.

No. 537 C.—1093.—The following draft of a notification which it is proposed to issue in exercise of the powers conferred by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), is published for the information of all persons likely to be affected thereby and notice is hereby given that the said draft will be taken into consideration by the Hon'ble the Chief Commissioner on or after the 31st August 1918.

2. Any objection or suggestion which may be received from any person with respect to the draft before the date aforesaid will be considered by the Hon'ble the Chief Commissioner :—

DRAFT NOTIFICATION.

In exercise of the powers conferred by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), and with the previous sanction of the Governor-General in Council the Hon'ble the Chief Commissioner is pleased to make the following amendments in the Ajmer-Merwara Petroleum Rules issued in this office notification No. 1530—1093, dated the 14th October 1909 :—

In Chapter IV, Part II—

(1) The following shall be added to rule 9 (1) :—" Permanent licenses in Form F may be granted free of charge for the possession of dangerous petroleum for use on motor vehicles and for its transport thereon for the purpose of use therein. The licenses will be subject to the condition that the owners of the vehicles shall surrender the licenses to the licensing authority if they part with the vehicles on behalf of which they are granted."

(2) The following words shall be inserted at the beginning of rule 1 of the same Chapter :—

" Save as provided in rule 9 (1) of this Chapter."

(3) Insert the following as condition 12 at the back of the license Form F :—

" This license need not be renewed annually but the owner shall surrender the license if he parts with the motor vehicle on behalf of which the license is granted."

By order,
B. J. GLANCY,
First Assistant to the Governor General's Agent, Rajputana, and Chief Commissioner, Ajmer-Merwara.

Director of Statistics.

Published by order of the Governor-General in Council.

DEPARTMENT OF STATISTICS, INDIA.

TRADE FLUCTUATIONS IN SELECTED ARTICLES IN MAY, 1918.

The object of the tables appended is to show the quantities of the principal staples of agricultural produce imported from the various provinces, etc., and from foreign countries into the ports of Calcutta, Bombay, and Karachi, and into the Madras ports during the month of May, 1918, and for the two months April and May, 1918, as compared with the corresponding periods of 1917. The statistics include foreign sea-borne and coasting trade as well as inland (rail and river-borne) trade. They have been furnished by Collectors of Customs, Steamer Companies, Railway-Audit Officers, the Commissioners for the Port of Calcutta, etc.

TRADE FLUCTUATIONS IN MAY, 1917 AND 1918.

It will be seen from summary table I that the imports by rail, river, and sea in May, 1918, as against the corresponding month of 1917, show (in round numbers) an increase of—

89 per cent in tea
(14,150,500 lbs as against 7,478,200 lbs last year),
82 per cent in rice (including paddy)
(98,100 tons as against 54,000 tons last year),
44 per cent in gram and pulse
(94,200 tons as against 65,300 tons last year), and
35 per cent in linseed
(23,700 tons as against 17,500 tons last year).

The imports of wheat (excluding wheat flour) by rail, river, and sea into the ports show a decrease of 51 per cent (124,000 tons as against 252,800 tons last year) due mainly to smaller exports from the Punjab, the Central Provinces and Berar, and Rajputana and Central India. The fall of 48 per cent (7,700 tons as against 14,900 tons last year) in the imports of rape and mustard seed is accounted for by smaller exports from the United Provinces. The imports of raw cotton show a fall of 23 per cent (312,700 bales as against 407,300 bales last year) owing mainly to a decrease in exports from Bombay, the Central Provinces and Berar, and Rajputana and Central India. The decrease of 7 per cent (187,600 bales as against 201,400 bales last year) in the imports of jute into Calcutta is accounted for by smaller exports mainly from Bengal.

It will be seen from Table IV (wheat, excluding wheat flour) that the principal sources of the imports in May, 1917, were the Punjab (40 per cent), the United Provinces (25 per cent), and the Central Provinces and Berar (17 per cent). During May, 1918, the ports received their supplies mainly from the United Provinces (72 per cent of the total), Punjab (8 per cent), Bihar and Orissa (7 per cent), and the Central Provinces and Berar (6 per cent).

NOTE.—One bale of cotton or jute is equivalent to 400 lbs.
One maund is equivalent to 82⅗ lbs.
One maund of paddy is taken as equivalent to 25 seers of rice.

GENERAL RESULTS—TWO MONTHS' IMPORTS INTO THE PORTS FROM UP COUNTRY, ETC., THIS YEAR AND LAST YEAR.

The two months' figures in table I show (in round numbers) an increase of—

50 per cent in gram and pulse
(201,900 tons as against 134,600 tons last year),

47 per cent in tea
(25,553,800 lbs as against 17,343,400 lbs last year),

47 per cent in jute
(520,700 bales as against 353,400 bales last year), and

6 per cent in rice (including paddy)
(170,000 tons as against 160,600 tons last year).

The Imports of wheat (excluding wheat flour) into ports show a decrease of 47 per cent (223,200 tons as against 423,800 tons last year) mainly on account of smaller exports from the Punjab, the Central Provinces and Berar, and Rajputana and Central India. The fall of 32 per cent (24,300 tons as against 35,900 tons last year) in rape and mustard seed is accounted for by smaller exports mainly from the United Provinces. The imports of raw cotton show a decrease of 31 per cent (627,400 bales as against 909,700 bales last year) owing mainly to smaller exports from Bombay, the Central Provinces and Berar, and Rajputana and Central India. The decrease of 26 per cent (37,200 tons as against 50,000 tons last year) in the imports of linseed into the ports is accounted for by smaller exports mainly from Rajputana and Central India and Madras.

TRADE FLUCTUATIONS IN MAY, 1918, AS COMPARED WITH THE PREVIOUS MONTH.

As compared with April, 1918, the imports in May, 1918, into the ports referred to above show (in round numbers) a decrease of—

54 per cent in rape and mustard seed
(7,700 tons as against 16,700 tons previous month),

44 per cent in jute
(187,600 bales as against 333,100 bales previous month),

12 per cent in gram and pulse
(94,200 tons as against 107,700 tons previous month), and

1 per cent in raw cotton
(312,700 bales as against 314,800 bales previous month),

and an increase of—

76 per cent in linseed
(23,700 tons as against 13,500 tons previous month),

36 per cent in rice (including paddy)
(98,100 tons as against 71,900 tons previous month),

25 per cent in wheat (excluding wheat flour)
(124,000 tons as against 99,200 tons previous month), and

24 per cent in tea
(14,150,500 lbs as against 11,403,300 lbs previous month).

The statistics for May 1917 and 1918, as also for the two months ending May 1917 and 1918, together with those for April and May 1918 are summarised below :—

NOTE.—One bale of jute is equivalent to 400 lbs

By "Calcutta" is meant the town of Calcutta with Howrah and the Kidderpore Docks. The imports exclude, therefore, imports into those jute mills which are outside this area. Such mills form the large majority of the total number of mills manufacturing jute.

COTTON PRESS RETURN.

No. 18 OF 1917-18.

PREFATORY NOTE.

THE COTTON SEASON, 1917-18.

The yield of the cotton crop of 1917-18 was estimated in February, 1918, at 4,035,000 bales on an area of 24,781,000 acres, as compared with 4,489,000 bales on an area of 21,745,000 acres, the revised final figures of the preceding year. There was a decrease of 10 per cent in outturn. There were 1,242,000 bales of cotton pressed in the pressing factories, and 404,000 bales of unpressed cotton received in the spinning mills, from 1st September, 1917, to 31st May, 1918, as against 1,843,000 bales and 400,000 bales, respectively, during the corresponding period of last year, showing a decrease of 33 per cent in the case of presses, but an increase of 1 per cent in the case of mills. Too much stress should not be laid on the accuracy of these returns as a means of checking the forecast estimates of outturn, as there is at present no system in vogue of furnishing complete returns from all presses and mills. The figures for the Native States of Hyderabad, Central India, Rajputana, and Mysore are, as will be seen from the footnotes to the tables, mostly incomplete and have been excluded from this comparison.

I.—Cotton Press Return for India in the half-month ending 31st May, 1918.

NOTICES.

THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2. *Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. These should be consulted before an application is made to the Controller.

3. *Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India applications should be made to the patent offices in the countries concerned.

4. *Fees* are payable in *cash* and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

5. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with *pictures, photographs, etc.*, for which copyright is obtainable under the Indian Copyright Act, 1914.

6. *Printed Specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

ORDERS BY THE HON'BLE THE CHIEF COMMISSIONER, AJMER-MERWARA.

NOTIFICATIONS.

A. G. G.'s Camp, Rajputana, the 17th July 1918.

No. 537 C.—1093.—The following draft of a notification which it is proposed to issue in exercise of the powers conferred by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), is published for the information of all persons likely to be affected thereby and notice is hereby given that the said draft will be taken into consideration by the Hon'ble the Chief Commissioner on or after the 31st August 1918.

2. Any objection or suggestion which may be received from any person with respect to the draft before the date aforesaid will be considered by the Hon'ble the Chief Commissioner :—

DRAFT NOTIFICATION.

In exercise of the powers conferred by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), and with the previous sanction of the Governor-General in Council the Hon'ble the Chief Commissioner is pleased to make the following amendments in the Ajmer-Merwara Petroleum Rules issued in this office notification No. 1530—1093, dated the 14th October 1909 :—

In Chapter IV, Part II—

(1) The following shall be added to rule 9 (1) :—"Permanent licenses in Form F may be granted free of charge for the possession of dangerous petroleum for use on motor vehicles and for its transport thereon for the purpose of use therein. The licenses will be subject to the condition that the owners of the vehicles shall surrender the licenses to the licensing authority if they part with the vehicles on behalf of which they are granted."

(2) The following words shall be inserted at the beginning of rule 1 of the same Chapter :—

"Save as provided in rule 9 (1) of this Chapter."

(3) Insert the following as condition 12 at the back of the license Form F :—

"This license need not be renewed annually but the owner shall surrender the license if he parts with the motor vehicle on behalf of which the license is granted."

The 31st July 1918.

His Majesty the KING has been graciously pleased to approve of the following Awards to the undermentioned Officers and Warrant Officers, in recognition of their gallantry and devotion to duty in the Field :—

* * * * * * * *

AWARDED THE MILITARY CROSS.

* * * * * * * *

Subadar Major Bhim Sing Thapa, I.O.M., Gurkha Rif.

For conspicuous gallantry and devotion to duty. He led his platoon in an attack through intense machine-gun and rifle fire After the capture of the enemy's position, seeing that a gap had occurred between the right of the battalion and the next unit, he filled the gap on his own initiative. He took command of that portion of the line, the British officer having been killed, and consolidated the position under very heavy shell and machine gun fire. He set a magnificent example of courage and determination.

* * * * * * * *

Subadar Damar Sing Gurung, Gurkha Rif

For conspicuous gallantry and devotion to duty. He led an attack on an enemy patrol. Having outstripped his men in the charge, he saw one of the enemy about to throw a bomb. He at once rushed at him and wrested the bomb from his hand. During a counter-attack by a strong force of the enemy, he volunteered to go forward to an advanced portion of the line, which was endangered by the enemy's attack. He crossed a hundred yards of exposed ground under heavy rifle fire, and took command of that part of the line until the attack was finally repulsed. He set a magnificent example of courage and determination.

* * * * * * * *

Capt. Guy Fisher Turner, Punjabis, I.A.

For conspicuous gallantry and devotion to duty. He led a party of his regiment across difficult country against an enemy picquet five miles away. His party rushed and surprised the picquet and killed several of the enemy. He showed great skill and initiative.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 3rd August 1918.

Burma.—The rainfall was general throughout the Province. The fall was good in Lower Burma and in the northern districts but scanty in the dry zone of Upper Burma. Cultivation of winter rice is proceeding satisfactorily in Lower Burma and in irrigated tracts of Upper Burma. Ploughing and sowing of dry crops continue in Upper Burma. The condition of standing crops is generally good in Lower Burma and fair in Upper Burma. Livestock is healthy. The price of unhusked rice has risen slightly but is still below normal. The market for white rice is firm at Rs. 245 per hundred baskets for specials.

Assam.—The weather is seasonable. Floods are subsiding. Manufacture of tea, ploughing for and transplanting of winter rice and harvesting of autumn rice are in progress. Harvesting of jute has commenced. Sowing of winter rice seedlings has been nearly finished. Prospects of standing crops are generally fair to good. Cattle disease is reported from seven districts. The price of common rice is practically stationary.

Bengal.—Light to moderate rain fell during the week. More rain is urgently wanted in the western districts for the transplantation of winter paddy. Cutting, steeping and washing of jute are in progress in eastern Bengal. In western Bengal the crop is about to be harvested in many places. Harvesting of autumn paddy is going on. The condition and prospects of winter paddy and sugarcane are good but of autumn paddy and jute fair. The price of common rice has risen by about 0·7 per cent.

Bihar and Orissa.—The rainfall during the week was general over the Province, the fall being moderately heavy in parts of Orissa and light to moderate in the rest of the Province. Good rain in Orissa has been highly beneficial to standing crops and the rainfall in the Patna and Tirhut divisions, though light, has improved the situation to some extent. More rain, however, is urgently wanted for transplantation as well as for standing crops especially in Bihar. The price of common rice has risen in ten districts, fallen in one and remained stationary in the remaining districts as compared with that of the preceding week. Cattle disease is reported from fifteen districts. More rain is wanted for the transplantation of paddy and for standing crops in some of the Feudatory States of Orissa.

United Provinces.—Report not received.

Punjab.—Except for light showers in parts of a few districts the weather remained dry. Rain is badly needed everywhere, especially for unirrigated crops which have begun to wither. Sowings of rice, millets and other autumn crops continue and are below normal to normal. The condition of standing autumn crops is average to fairly good on irrigated and considerably below average on unirrigated areas. Extra spring crops are being harvested with yield normal. Cattle are healthy and fodder and water are generally sufficient. Prices are generally stationary but have arisen slightly in some districts. They range generally between warning and scarcity rates. Price of Wheat:—Rawalpindi 7¼, Lahore 8, Lyallpur 8¼ and Ambala and Ferozepore 8¼ seers per rupee.

North-West Frontier Province.—During the week showers fell in places. More rain is urgently needed especially for unirrigated areas in one district where the condition of standing crops is reported to be below average. Sowings of certain autumn crops is proceeding normally. The yield of extra spring crops is average. Wheat is selling in Peshawar at 9 1/16 and in Dera Ismail Khan at 10 seers per rupee.

Jammu.—Slight rain fell in some parts. Prices are stationary.

Kashmir.—The week was generally dry and hot. Standing crops are in fair condition. Cattle disease is prevalent in the Mozaffarabad district. Prices are high.

Rajputana.—The weather during the week was moderately wet. Lack of rain has retarded agricultural operations. Cattle are in fair condition. Water is sufficient. Fodder is getting scarce. Prices are high but falling.

Central India.—The rainfall during the week was partial but insufficient. Autumn crops are being sown and weeded except in Gwalior where sowing has been suspended for want of rain. Standing crops are in fair condition except in Gwalior where they are withering. Agricultural stock is in fair to good condition. Scarcity of fodder prevails in Gwalior. Prices are high.

Central Provinces.—During the week the weather continued to be cloudy and rainy. Moderate to heavy rain was received all over the Provinces, ranging from 1¼ inches in Akola to 8½ inches in Narsinghpur. Sowings which were retarded for want of rain have been resumed and germination is successful. Transplantation of rice and weeding are proceeding rapidly. The rainfall has greatly benefitted the standing crops and their prospects are satisfactory. Fodder is still dear or scarce in parts of Saugor, Hoshangabad, Nimar and Buldana. Cattle are faring well. Prices fluctuate.

Feudatory States:—Good rain was received everywhere. Thinning of rice crop and weeding operations are in full swing.

Bombay.—Good rain fell during the week in the Konkan, Surat, Kolhapur and Savantvadi but elsewhere in the Presidency Proper the fall was light to fair. No rain fell in Sind. More rain is urgently needed in almost all districts. Sowing continues in Hyderabad, Nawabshah, Kanara and parts of Gujarat and has been retarded in Ahmedabad, Dharwar and parts of the Deccan. Transplantation generally continues in Hyderabad, Surat, Nasik, Belgaum and the Konkan. Germinated seedlings have been damaged slightly by insects in parts of Nawabshah and by winds in Karachi. They are withering in Karachi, Sukkur, Larkana, Ahmedabad, Kaira, Baroda, Bijapur and parts of the Deccan. The fodder supply is deficient in parts of the Deccan, Kathiawar, Baroda, Gujarat and the Karnatak. Irrigation is deficient in parts of Sind. Agricultural stock is generally sufficient. Prices of food grains have risen slightly in the Karnatak and are steady elsewhere.

Hyderabad.—The rainfall during the week was good and general. The average fall was 2 inches 31 cents. Sowings for autumn crops have been resumed and the crops are improving. Sowing for early rice continues and the crop is in fair condition. Cattle are healthy. Fodder is scarce in some districts. Prices of grains continue to be high. *Juar* is selling at 3¾ seers per rupee in Gulbarga.

Mysore.—The week was slightly wet. Ploughing and sowing operations [illegible] progress. Standing crops are withering for want of rain. Cattle are generally h[illegible] Prices are generally rising.

Coorg.—Slight rain fell during the week. More rain is badly needed. Ploughing for and transplantation of rice continues. Cattle disease prevails in some villages. Water and fodder are sufficient. The public health is fair. Prices of food grains are high.

Madras.—The rainfall during the week was *nil* or negligible in the Carnatic central and south, normal in the Circars and below normal elsewhere. Standing crops are in fair to good condition generally. Harvesting of paddy, sugarcane and dry crops is proceeding with outturn fair to normal generally. Sowings of paddy, sugarcane and dry crops are proceeding normally. The condition of cattle is generally good. Water continues to be insufficient in the greater portion of the Presidency. Prices tend to rise.

Nepal.—*Report for the quarter ending 15th July 1918.*—The rainfall for the period was 22·31 inches against 15·98 inches for the corresponding period of last year.

April 1918.—The second crop of potatoes was dug and the outturn was satisfactory. Early rice, Indian corn and chillies were sown.

May 1918.—Wheat, barley and peas (small) were harvested in the hills and the Nepal valley, the outturn was good.

June 1918.—Millet was sown in the hills. Plums and peaches commenced to ripen in Nepal, and transplantation of rice was begun.

July 1918.—Plums and peaches were gathered and the crops were plentiful. Pears and apples commenced to ripen. Transplantation of rice continued. The standing crops of rice, Indian corn and chillies are doing well. The rainfall has been good and sufficient. The market is well stocked and the prices of food stuffs continue normal. The health of live stock is reported to be good.

Memorandum on the rainfall of June and July and the probable amount during August and September 1918.

WEATHER IN INDIA DURING JUNE AND JULY.

The Arabian Sea monsoon appeared on the Malabar coast on May 11th, nearly three weeks before its normal date, and extending slowly northwards during the remainder of the month gave widespread and unusually heavy rain over nearly the whole of the Peninsula. Its activity however declined rapidly in the beginning of June and ever since, except for a few short intervals of comparative improvement, the current has remained very weak. The Bay monsoon arrived in Bengal on the 27th May, upwards of two weeks earlier than usual : it was decidedly strong in June but on the whole appreciably weaker than usual in July.

The currents have given occasional rain to the United Provinces and Central India, but have failed almost entirely to penetrate into northwest India.

The total rainfall of June and July in the plains of India fell short of the normal by 5·1" or 25 per cent. The deficiency was common to almost all parts of the country, the few exceptions being Upper Burma, Assam, Bengal and the Central Provinces East. Rainfall was especially scanty over a large part of northwest India as well as in Central India East, the Bombay Deccan, Hyderabad South, Mysore and the Madras Deccan, which received less than 40 per cent. of their normal supply. There was a large defect also in the United Provinces, Central India West, Berar, the Konkan, Hyderabad North Malabar.

2. The following tables give for June and July and the total period the actual rainfall, the departure from normal and the percentage departure from normal for the fifteen chief political divisions and thirty-three sub-divisions.

Conditions affecting the rains of August and September 1918.

3. The recent data regarding the conditions most likely to have influence on the rains of August and September, 1918, are :—

The Argentine Republic and Chili.

4. In the Argentine pressure was lower than usual by 1·5 mm. both in June and July. At Santiago the pressure defects for these months were 0·4 mm. and 0·1 mm.

The Indian Ocean.

5. *Mauritius.*—Pressure was either about normal or decidedly above it except towards the close of July. On the whole there was an excess of about ·04" in both months.

Zanzibar.—Pressure was nearly normal in June and in excess by ·02" in July. The air movement varied considerably in strength from week to week and variable winds occurred during the second week of June.

Seychelles.—Pressure was high by about ·02" in June and by ·03" in July. Winds were unusually strong and steady.

Logs of vessels.—Hardly any marine information is available regarding the west of the equatorial belt.

Snowfall in the mountain regions to the north and west of India.

6. (*a*) In Afghanistan light snow fell on the 24th June on the hills adjacent to the Paghman range.

(*b*) In the North-West Frontier Province there were some light falls on the higher hills in the Kagan valley, Drosh, Dir and Swat Kohistan. At the end of July the unmelted residue of the accumulations varied in depth between 1 and 3 feet on the higher elevations in Drosh.

(*c*) In Kashmir there were several falls on the ranges near Skardu and Leh and a few falls on those around Gulmarg, Sonamarg and Srinagar, but all of them were light. Snow is said to be lying thicker and to a lower level than usual on the ranges to the west of Skardu.

(*d*) In the Punjab Himalayas snow fell on four occasions in July on the ranges near Kilba, but the falls were light and did not descend below 14,000 feet. In the Chamba hills there were only two light falls. The present accumulations on the passes adjacent to Kilba are apparently of about the average depth.

(*e*) In the Garhwal and Almora hills snowstorms were as usual of occasional occurrence. The existing accumulations are probably either normal or less than usual.

On the whole it may be said that although there was somewhat more snowfall than usual in July in parts of the western Himalayas, the total fall of June and July did not differ materially from the average, and the present covering of snow is generally of about the usual thickness.

India.

7. The mean air pressure during July has been decidedly above normal by ·034". It was greatest along the west coast culminating in Gujarat with an excess of + ·09"; it fell to normal along the Himalayas and Lower Burma; and was below normal by ·02" in the extreme northeast angle of the country.

Inferences from the data.

8. The factors which, as far as is now known, have the most important favourable influence on the monsoon rainfall of June to September are:—

(1) high pressure in the Argentine and Chili from April onwards;

(2) low pressure in the Indian Ocean from May onwards;

(3) low pressure in India from June onwards;

(4) an abnormally small area covered with snow in the northwest mountain regions from June onwards;

(5) a deficient rainfall in April and May at Zanzibar and in May at Seychelles; and

(6) an absence of calms and variable or northerly winds in the equatorial region from May onwards.

Of these (1) was distinctly unfavourable at the time of the June forecast, (2) and (4) were slightly favourable, (5) was slightly favourable at Zanzibar for the Bombay monsoon and decidedly favourable at Seychelles for the Bay monsoon, and scanty information available about (6) was unfavourable to the Bombay monsoon. Regarding Upper Burma and northeast India, which are not injured by low pressure in South America, the outlook was accordingly hopeful and the forecast has so far proved correct. Regarding the Bombay monsoon the knowledge of its phenomenal vigour in May seemed to make a gloomy forecast impossible, and the outlook was given on the 8th June as 'roughly normal though slightly perhaps on the unfavourable side.'

Since that time pressure in the South American stations has remained decidedly low and as usual under these conditions pressure in the Indian Ocean [has] been high with prejudicial effects on the Bombay monsoon.

9. It has for some years been known that deficient rainfall during the first half of the monsoon is just as likely to be followed in the second half by abundant as by deficient rain, and *vice versa*. But it frequently happens, as it has in the present season, that the rainfall is dominated by abnormal pressure conditions outside India in the first half of the period and we know that the effect of these persists, so that the effect of the pressure conditions is to bring about a similarity between the first and second halves of the monsoon season. Now as the total effect of rainfall in the first half on that of the second half is zero this means that in addition to the positive indirect relationship there is a negative direct relationship; and a statistical investigation of the data of the past forty-three years confirms this conclusion.*

In the present year it is unfortunate that the pressure deficiencies cabled from Buenos Ayres and Santiago differ considerably, but it seems that the rains have failed to a greater extent than is explained by extra-Indian pressure as it was and is. On this account partly, and also from the direct result of the rainfall deficiency of July, it would appear that an improvement of the monsoon is to be anticipated.

10. The question of the geographical distribution of the rainfall remains to be considered, and first of all we have to ascertain how far the experience of the past two months fits with the interpretation that the failure is chiefly due to unfavourable pressure conditions. Let us consider the effect on the pressure distribution. An examination made in 1916 of the data of forty years showed that high pressure in the Indian Ocean in July sends up pressure in July to a marked extent along the west coast of India, especially south of Goa, has no effect along the line from the Punjab to Orissa, and has a slight negative effect in Bengal, Assam and north Burma. This result strongly suggests the features of the pressure of the past month as described in paragraph 7 above.

It remains to examine the probable influence of pressure on the rainfall of the next two months. Analysis of past data shows that the prejudicial

* The regression equation connecting the proportionate departure is—

{ rain, second half } = ·65 { pressure, South America, minus Mauritius } — ·25 { rain, first half, }

effect of low pressure in South America and high pressure in the Indian Ocean is very strongly marked in the United Provinces, the east and north Punjab, the North-West Frontier Province, east Rajputana, Gujarat, the Konkan, south Hyderabad and Madras; in Central India, the Bombay Deccan, Berar, north Hyderabad and Mysore it is strongly marked; and it is only slightly marked in the Central Provinces. It will be seen that these influences would produce a distribution of rain closely resembling that of July.

Summary.

11. (*a*) Prediction is unusually difficult in a season in which the strongest monsoon on record in May has been followed by the weakest monsoon on record in July; but although the outlook is not favourable there are grounds for expecting an improvement in the general rainfall of India.

(*b*) Apart from northeast India and Burma the area most likely to get a good percentage of its usual rainfall in August and September is the Central Provinces; and the prospects are least good in northwest India, including the greater part of the United Provinces, the west-coast regions and Madras.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette* and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*.

J. P. HEWETT,
Secretary to the Government of India."

NOTICES.

THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2. *Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Tempo-

rary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. These should be consulted before an application is made to the Controller.

3. *Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India applications should be made to the patent offices in the countries concerned.

4. *Fees* are payable in *cash* and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

5. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with *pictures, photographs, etc.*, for which copyright is obtainable under the Indian Copyright Act, 1914.

6. *Printed Specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

CHIEF CLERK'S OFFICE, HIGH COURT,
Bombay, this 6th day of August 1918.

R. B. PATEL,
Chief Clerk.

THE HON'BLE THE CHIEF COMMISSIONER OF BRITISH BALUCHISTAN.

NOTIFICATION.

Quetta, the 31st July 1918.

No. 2704-R.—The following draft amendments which it is proposed to make in the rules framed under section 9 of the Indian Petroleum Act, 1899 (VIII of 1899) and published with the Hon'ble the Chief Commissioner's Notification No. 2308, dated the 29th April 1909, is published for criticism.

The draft will be taken into consideration on or after the 15th September 1918 with any remarks or suggestions which are received on or before that date :—

In Part II, Chapter IV.

(1) The following shall be added to rule 9 (i) :—

"Permanent licenses in form F may be granted free of charge for the possession of dangerous petroleum for use on motor vehicles and for its transport thereon for the purpose of use therein. The licenses will be subject to the condition that the owners of the vehicles shall surrender the licenses to the licensing authority if they part with the vehicles on behalf of which they are granted."

(2) The following shall be added at the end of rule 1 of the same chapter :—

" (Save as provided in rule 9 (i) of this Chapter)."

(3) The following shall be inserted as condition 12 at the back of the license form F :—

"This license need not be renewed annually, but the owner shall surrender the license if he parts with the motor vehicle on behalf of which the license is granted."

By order,

R. CHENEVIX TRENCH,

Secretary.

ORDERS BY THE HON'BLE THE CHIEF COMMISSIONER, AJMER-MERWARA.

NOTIFICATIONS.

Abu, the 9th August 1918.

No. 1106—1385.—In supersession of the rules made under Notification No. 1074—1385, dated the 15th June 1916, and in exercise of the powers conferred by section 43 of the Co-operative Societies Act, 1912 (II of 1912), the Hon'ble the Chief Commissioner is pleased to make the following rules with a view to carrying out the purposes of the said Act, in Ajmer-Merwara :—

Member's interest.

1. No member, other than a registered Society, shall hold more than one-fifth of the share capital of a co-operative society, whether the liability be limited or unlimited.

Application for Registration.

2. (a) Every application for the registration of a Society shall be submitted to the Registrar in the form prescribed by him.

(b) The application may be submitted either by a registered Society or Societies or by persons not less than 10 in number and all above the age of 18. When a registered Society is an applicant, the application shall be signed on its behalf by the Officer of the Society duly empowered for that purpose under the bye-laws of the Society.

(c) Together with the application shall be submitted two copies of the bye-laws which the Society purposes to adopt unless the model bye-laws issued by the Registrar are adopted in their entirety, in which case a note to that effect shall be recorded on the application.

(d) When bye-laws other than the model bye-laws are adopted, the Registrar shall, when he has approved of them, return one copy to the Society, stamped with the official seal of the Registrar, at the time when he sends the certificates of registration.

3. When the Registrar refuses to register a Society or its bye-laws he shall record in writing his reasons for refusing.

Compulsory bye-laws

4. A Society shall make bye-laws in respect of the following matters :—

(a) Name.

(b) Registered address.

(c) Objects for which the Society is established.

(d) Purposes to which the funds may be applied.

(e) Qualifications for membership, the terms of admission of members, and the mode of election.

(f) Nature and extent of the liability of members.

(g) Withdrawal and expulsion of members, and the payments, if any, to be made to such members.

(h) Transfer of the shares or interest of members.

(i) Manner of raising funds.

(j) General Meetings and procedure and powers of such Meetings.

(k) Appointment, suspension and removal of members of the committee and officers, the powers and duties of the Committee and Officers.

If the objects of the Society include the creation of funds to be lent to the members, additional bye-laws shall be made on the following matters :—

(l) The tribe, class, caste, occupation or residence of the members.

(m) The conditions on which loans may be made to members, including :—

(1) the rate of interest,

(2) the maximum amount which may be lent to a member,

(3) extension of the term and renewal of loans,

(4) the purposes of loans,

(5) security for payment.

(n) The consequences of default in payment of any sum due on account of shares of loan.

(o) Disposal of the profits.

(p) The authorization of an officer to sign documents on behalf of the Society.

Amendment of bye-laws.

5. (a) Subject to the provisions of Section 11 of the Act and of rule 4 of these rules a Society may from time to time make new bye-laws for the conduct of its business or may amend or cancel any bye-law already made.

(b) Such additions, amendments, or cancellation shall only be made by the majority of menbers present at a general meeting at which in the case of Central Banks not less than ⅓rd and in case of other Societies not less than two-thirds of the members are present.

(c) Two copies of such amendments, signed by two officers of the Society shall be submitted to the Registrar accompanied by :—

(1) a statement that the amendment was adopted by a majority of the members present at a general meeting at which in the case of Central Banks not less than ⅓rd and in the case of other Societies not less than two-thirds of the members were present.

(2) an application that the change in the bye-laws be registered.

If the Registrar approves of the amendments he shall register them, retain one copy in his office and return the other to the Society with a certificate that the amendments have been registered.

Explanation :—

Amendment includes a new bye-law and a resolution rescinding a bye-law.

Limit of loans.

6. Every Society with unlimited liability shall from time to time fix, in a general meeting, the maximum liability it may incur in loans or deposits from non-members. The maximum so fixed shall be subject to the sanction of the Registrar who may at any time reduce it. No such Society may receive any loan or deposit from a non-member which will make its liability to non-members exceed the limit sanctioned by the Registrar.

General Meetings.

7. (a) Every Society shall from time to time hold general meetings as provided in the bye-laws for the disposal of necessary business including :—

(1) the fixing of a maximum liability as required by rule 6,

(2) the fixing of a maximum credit for each member,

(3) the election of members of Committee,

(4) the consideration of the annual balance sheet.

(5) the consideration of the audit note and any inspection note by the Registrar or Inspector,

(b) Questions before the general meeting shall be decided, unless otherwise specifically provided by a majority of members present. In primary Societies no proxies shall be allowed. In Central Banks no proxies shall be allowed for individual members but a share-holding Society may be represented by any of its members empowered by general or special resolution to do so.

(c) The Registrar or any person authorised by him may at any time summon a special general meeting of the Society in such manner and at such time and place as he may direct. He may also direct what matters shall be discussed by the meeting. Such meeting shall have all the powers and be subject to the same rules as a meeting called according to the bye-laws of the Society.

Managing Committee.

8. Members of the Committee shall be appointed, suspended and removed in a general meeting by majority of the members present.

9. A member is not eligible for the Committee if :—

(a) he is under 21 years of age;

(b) he holds any office of profit under the Society or receives any honorarium;

(c) (in a Credit Society) he lends money on his own account.

10. A member of the Committee shall cease to hold office if :—

(a) he ceases to be a share-holder, or

(b) he is declared insolvent, or

(c) he becomes of unsound mind, or

(d) he is convicted of any offence involving dishonesty or is imprisoned for a period of not less than three months, or

(e) he accepts any office of profit under the Society or receives any honorarium, or

(f) (in a Credit Society) he lends money on his own account.

11. The Committee shall exercise all the powers of the Society except those reserved for the general meeting, and subject to any regulations or restrictions duly laid down by the Society in a general meeting or in the bye-laws. *Powers of Committee.*

12. The duties of the Committee shall include the following:— *Duties of Committee.*

(1) To comply with the Act and the rules made thereunder and the bye-laws of the Society,

(2) to maintain true and accurate accounts,

(3) to keep a true account of the assets and liabilities,

(4) to keep a correct register of members,

(5) to lay before the annual general meeting a profit and loss account and a balance sheet,

(6) to assist the inspection of the books by any person authorised to see them,

(7) (in a Credit Society) to watch that loans are applied for the approved purposes for which they were made.

13. Every Credit Society shall maintain— *Books of a Society.*

(a) a cash book,

(b) a ledger account for each member,

(c) a register showing when loans are due for payment,

(d) a register of deposits,

(e) a minute book.

14. Every Central Bank shall exhibit its annual balance sheet to any person desiring to see it during office hours. Every primary credit society shall exhibit its annual balance sheet to any person interested in its funds as member, depositor or creditor. *Publication of balance sheet.*

15. The Committee of every Society or some officers of the Society appointed for this purpose by the Committee shall prepare yearly in such forms as may be prescribed by the Registrar:— *Annual statements.*

(a) an account showing the income and expenditure for the year,

(b) a profit and loss account, and

(c) a balance sheet.

The account shall be made up to 30th June, and a copy of each account shall be sent to the Registrar within such time as he may direct.

16. For the purpose of Section 26 of the Act a copy of an entry in the book of a Society may be certified by a certificate written at the foot of such copy, declaring that it is a true copy of such entry, and that the book containing the entry is still in the custody of the Society, such certificate being dated and signed by the Secretary of the Society or other officer approved by the Registrar. *C...*

17. Every Society shall maintain a register of members showing— *Register of members.*

(a) the name, address and occupation of each member and a statement of the shares held by him,

(b) the date on which each member's name was entered in the register,

(c) the date on which any person ceased to be a member,

(d) the nominee, if any, appointed under rule 21.

18. (a) Any dispute concerning the business of a Co-operative Society between members or past members of the Society or persons claiming through them, or between a member or past member or persons so claiming and the Committee or any officer shall be referred to the Registrar. Reference may be made by the Committee or by the Society by Resolution in general meeting or by any party to the dispute, or if the dispute concern a sum due from a member of the Committee to the Society by any member of the Society. *Disputes.*

(b) The Registrar may either decide the dispute himself or appoint an arbitrator or refer it to three arbitrators, of whom one shall be nominated by each of the parties and the third shall be nominated by the Registrar and shall act as Chairman. When any party to a dispute fails to nominate a suitable arbitrator within 15 days, the Registrar may make the nomination. No legal practitioner may be nominated as arbitrator by any party.

(c) In such a proceeding the Registrar or arbitrator shall have power to administer oaths, to require the attendance of the parties and witnesses, and to require the production of all necessary books and documents by a summons, delivered orally or sent by hand or by registered post or through the nearest civil court having jurisdiction in the area in which the Society operates and shall further have power to order the expenses of determining the dispute to be paid either out of the funds of the Society or by such party or parties to the dispute as he may think fit.

(d) The Registrar or arbitrator shall hear the evidence of the parties and witnesses who attend and upon that evidence and after consideration of any documentary evidence produced by either side, a decision or award shall be given in accord-

ance with justice, equity and good conscience and shall be reduced to writing. In the absence of any party, duly summoned to attend, the dispute may be decided against him in default. Where three arbitrators are appointed, the opinion of the majority shall prevail.

(*e*) Any person duly summoned by the Registrar or arbitrator to appear before him or to produce any document and failing to do so shall be liable to the penalties prescribed in paragraph 7 (2) of the second Schedule of the Code of Civil Procedure, 1908.

(*f*) Any party aggrieved by an award of arbitrator may appeal to the Registrar in person or by Agent within one month of the date of the award.

(*g*) Any party aggrieved by a decision of the Registrar may appeal to the Commissioner in person or by Agent within one month of the date of such decision.

(*h*) An arbitrator's award, if no appeal has been made within a month, or a decision of the Registrar or Commissioner in appeal, shall not, as between the parties to the dispute, be liable to be called in question in any civil or revenue court and shall be in all respects final and conclusive, except on proof of the receipt of a corrupt gratification by the arbitrator.

(*i*) A decision or award shall on application to any civil court having jurisdiction in the area in which the Society operates be enforced in the same manner as a decree of such Court.

(*j*) In proceedings before the Commissioner, the Registrar or an arbitrator no party shall be represented by a legal practitioner.

Withdrawal of members.

19. In Societies of unlimited liability—

(*a*) a member who is not in debt to the Society and is not surety for an unpaid debt may withdraw from the Society after giving one month's notice to the Secretary,

(*b*) a member who ceases to be qualified under the bye-laws shall be removed by the Committee,

(*c*) a member may be removed or expelled from the Society in such way and for such cause only as may be prescribed by the bye-laws,

(*d*) a member withdrawing, removed or expelled from the Society shall be entitled to repayment without interest of any money paid by him or his predecessor in interest towards the purchase of shares after the period prescribed in the bye-laws.

Nominee.

20. Every member of a Society may nominate a person to whom his shares or interest referred to in Section 22 of the Act shall on his death be transferred or the sum specified shall be paid and may from time to time revoke or modify such nomination. The nomination shall be recorded in the register of members and attested by the thumb mark or signature of the member. The value of his share or interest shall be represented by the sum actually paid by him to acquire such share or interest unless the bye-laws provided for calculation otherwise.

The nominee may become a member only if admitted by the Committee.

Reserve Fund.

21. The reserve fund of a Society may, unless the Registrar by special order, direct it to be invested as provided in Section 32 (1) (*a*), (*b*), (*c*) and (*d*) be utilised in the business of the Society.

22. The reserve fund shall be indivisible and no member shall be entitled to claim a specified share in it.

23. On the dissolution of a Society the reserve fund shall be applied to discharging the liabilities of the Society and to the repayment of the share capital.

Any sum that may remain may be applied to such object of local and public utility as may be selected by the Committee and approved by the Registrar.

If within three months of the dissolution of the Society the Committee fails to select an object that is approved by the Registrar, the latter shall credit the balance of the reserve fund to the Co-operative Society to which the Society was affiliated or shall deposit the amount in some Co-operative or other Bank until a new Co-operative Society with a similar area of operations is registered in which case it shall be credited to the reserve fund of the new Society.

Dividend.

24. (*a*) In a Society with a limited liability the dividend shall not exceed 12 per cent. per annum on share capital actually paid up. No bonus to shareholders shall be distributed in addition to dividend.

(*b*) In a Society with unlimited liability and with shares no dividend or bonus shall be paid until ten years have elapsed from the date of registration. In the eleventh year after at least one-quarter of the accumulated net profits has been carried to the reserve fund, the remainder of such profits may be apportioned among the members in the form of non-returnable shares. In the twelfth and each following year after at least one-fourth of the net profits of the year have been carried to the reserve fund, a dividend not exceeding 10 per cent. on each fully paid share may be paid from the remainder of the profits.

(*c*) No part of the funds of a Society not having share capital shall be divided among the members as bonus or dividend.

(*d*) Without the sanction of the Registrar no part of the funds of a Society shall be divided as bonus or dividend otherwise among the members until the entire ex-

penditure incurred by the Society during the year has been debited in the annual Profit and Loss Account before the net profit was calculated.

(e) No dividend shall be paid by any Society while any claim due from the Society to a depositor or lender remains unsatisfied.

(f) The Registrar may by general or special order direct that a Society shall not pay a dividend or shall pay dividends at a reduced rate so long as it receives loans or deposits from non-members other than a Central Bank.

Appeal.

25. The appeal under section 39 of the Act from an order of the Registrar cancelling the registration of a Society shall lie to the Commissioner.

Winding up.

26. (a) On cancelling the registration of a Society the Registrar may publish, in such manner as he thinks proper, a notice requiring claims against the Society to be submitted within one month to him or to such person as he may name as liquidator. All liabilities recorded in the books of any Society shall be deemed *ipso facto* to have been duly notified.

(b) When the registration of a Society is cancelled under section 39 or 40, the liquidator shall take charge of the books of the Society in order to wind up its affairs.

(c) If necessary, the liquidator may institute suits for the recovery of sums due to the Society.

(d) The liquidator shall proceed to determine the assets and liabilities of the Society as they stood at the time of the cancellation of its registration and shall determine the contributions to be made by the members and past members respectively to the assets of the Society. He shall also determine by what persons and in what proportions the costs of the liquidation are to be borne.

(e) The liquidator may issue a summons to any person whose attendance is required either to give evidence or to produce documents. He may compel the attendance of any person to whom a summons is issued and for that purpose issue a warrant for his arrest through the civil court exercising jurisdiction in the area in which the Society operates.

(f) The liquidator shall send all such processes for service to the civil court having jurisdiction in the area in which service is to be effected. The Court shall proceed as if such processes had been issued by it and shall return them to the liquidator with a report of service.

(g) He shall make an order noting the names of members and past members of the Society and the amount to be realised from each as contribution under clause (b), sub-section (2), of section 42 and as costs of liquidation under clause (d) of the same sub-section. This order shall be submitted to the Registrar for his approval, and he may modify it or refer it back to the liquidator for further enquiry or other action.

(h) A copy of the order, as finally approved by the Registrar, accompanied if necessary by a list of the property of each member or past member against whom the decree has to be enforced shall be filed in the civil court having local jurisdiction to be enforced as laid down in clause (a), sub-section (5) of section 42.

(i) If the civil court is unable to recover the sum assessed against any member or members to the extent of the liability of each for the debts of the Society until the whole amount due from the members is recovered and these orders shall be executed in the same way.

(j) The liquidator shall submit to the Registrar a quarterly report in such form as the Registrar may prescribe showing the progress made in the liquidation of the Societies placed under his charge.

(k) All funds in charge of the liquidator shall be deposited in the Post Office Savings Bank or with such other Bank or person as the Registrar may approve.

(l) After recovery of the dues of the Society and the realisation of the contribution and the costs of liquidation from the members and past members, the liquidator shall after meeting the liabilities of the Society, wind up its affairs and submit a final report to the Registrar.

(m) The Registrar shall fix the amount of the fee, if any, to be paid to the liquidator.

(n) No appeal shall lie from any order of the liquidator under Section 42.

Transactions with non-members.

27. Subject to principles to be laid down by the Local Government in respect to measures for the general promotion of agriculture and to the general control of the Local Government in this and in other respects, the transactions of a Society with persons other than members shall be subject to such prohibition and restriction as may be prescribed by the Registrar.

Inspection of documents.

28. Any member of the public shall be permitted on payment of a fee of one rupee for each occasion of inspecting to inspect for any lawful purpose any public documents (exclusive of public documents privileged under sections 123, 124, 129 and 131 of the Indian Evidence Act, 1872) filed in the office of the Registrar of Co-operative Societies, in particular of the following documents, namely:—

(1) The registration register.

(2) The registration certificate of a Society.
(3) The registered bye-laws of a Society and amendments effected in such bye-laws.
(4) An order cancelling the registration of a Society.
(5) An order directing the liquidation of a registered Society.
(6) The annual accounts of a Society.

The fees prescribed for certified copies of any public documents, which any person has under the preceding rule a right to inspect, are as follows :—

For a registration certificate Rs. 2; in the case of other documents, a sum calculated at the rate of two annas for each hundred words of the copy or extract.

Delegation of powers.

29. Power to make rules under section 43 in respect to the following matters is delegated to the Commissioner :—

(a) Under clause (h) of section 43 (2) of the Act prescribing the accounts and books to be kept by a registered Co-operative Society.

(b) Under clause (i) of section 43 (2) of the Act prescribing the returns to be submitted by a Society to the Registrar and providing for the persons by whom and the form in which such returns shall be submitted.

(c) Under clause (c) of section 43 (2) of the Act prescribing for any Society the maximum loan which may be made to any member without the Registrar's prior consent.

Condition.—The power hereby delegated does not extend to the making of any rule inconsistent with any rule made under the Act by the Local Government and for the time being in force.

HIGH COURT—ENGLISH DEPARTMENT—CIVIL.

NOTIFICATION.

The following rule having been framed by the High Court of Judicature at Fort William in Bengal, in the exercise of the power vested in it by section 37 of the Letters Patent, is published for general information. The rule will come into force on the 14th November, 1918.

RULE.

Add the following as a proviso to Rule 11(*a*), Part I, Chapter II, page 8 of the Rules of the High Court, Appellate Side:—.

"Provided that in the case of appeals preferred under section 15 of the Letters Patent from the decision of a single Judge of the High Court, the Bench appointed to hear such appeals after fixing a day for hearing the appellant or his pleader and hearing him accordingly, if he appears on that day, may dismiss the appeal without serving notice on the respondent or his pleader."

By order of the High Court,

HIGH COURT,
ENGLISH DEPARTMENT;
Civil.
The 9th August, 1918.

N. G. A. EDGLEY,
Registrar.

HIGH COURT, ORIGINAL SIDE.

NOTIFICATION.

Dated, 12th August 1918.

It is ordered that in the undermentioned Rules of the High Court 1914 relating to the Suitors Fund the words "Comptroller General of Accounts" be deleted and the words "Controller of Currency" be substituted and that the Rules as amended read as follows with effect from the 1st day of July 1918.

CHAPTER XVI.

Rule 12.—Unless the Court or a Judge shall otherwise direct, every decree or order for payment of money or delivery of securities into Court shall direct such money to be paid, or securities to be endorsed and delivered over to the Controller of Currency for the time being of the Government of India, and the Secretary and Treasurer for the time being of the Bank of Bengal (or such other officer or officers as shall, for the time being, have the custody of the funds of suitors), with the privity of the Accountant General of the Court.

Rule 13.—Unless the Court or a Judge shall otherwise direct, every decree or order for payment of money or delivery of securities out of Court shall direct such money to be paid or securities to be endorsed and delivered over by the Controller of Currency for the time being of the Government of India, and the Secretary and Treasurer for the time being of the Bank of Bengal (or such other officer or officers as shall, for the time being, have the custody of the funds of suitors), with the privity of the Accountant General of the Court.

CHAPTER XVII.

Rule 24.—The Sheriff shall receive all monies tendered to him under any warrant of arrest or attachment, and upon receipt of such monies, or on realization of monies by sale or otherwise from the property of the judgment debtor he shall forthwith certify to the Court the amount and date of such receipt or realization, and shall pay the amount, less his fees, poundage and charges, to the Controller of Currency for the time being of the Government of India, and the Secretary and Treasurer for the time being of the Bank of Bengal (or such other officer or officers as shall, for the time being, have the custody of the funds of suitors), with the privity of the Accountant General of the Court to be placed by them to the credit of the suit, subject to the further order of the Court.

CHAPTER XXIV.

Rule 4.—Except as provided in rules 21 and 22, all sums of money or securities for money, ordered to be paid or delivered into Court, on account of any suit or matter, shall be paid or endorsed and delivered, to the Controller of

Currency for the time being of the Government of India, and the Secretary and Treasurer for the time being of the Bank of Bengal (or such officer or officers as shall for the time being have the custody of the funds of suitors, hereinafter called "such officer or officers as aforesaid"), and shall be entered in books to be kept for that purpose by the Bank of Bengal, or such officer or officers as aforesaid in account with the Accountant General of the Court: and books containing full and minute statements of the accounts in each cause or matter shall be kept and carried on by the Accountant General of the Court at his office.

Rule 9.—Unless otherwise ordered, or prescribed, where any cash in deposit in the Bank of Bengal, or with such officer or officers as aforesaid, on account of any suit or matter, shall exceed Rs. 600 over and above what may be required for periodical or other payments, the Controller of Currency for the time being of the Government of India, and the Secretary and Treasurer for the time being of the Bank of Bengal or such officer or officers as aforesaid, shall, under the direction and with the privity of the Accountant General of the Court, invest the same in the purchase of 3½ per cent. promissory notes.

Rule 10.—The Controller of Currency for the time being of the Government of India and the Secretary and Treasurer for the time being of the Bank of Bengal, or such officer or officers as aforesaid, upon investing any money in the purchase of 3½ per cent. promissory notes on account of any suit or matter, shall cause the same to be entered in the books kept by the Bank of Bengal, or such officer or officers as aforesaid, in account with the Accountant General of the Court, to the credit of such suit or matter, and shall specify the number, dates, and nominal value of such securities.

Rule 11.—The Controller of Currency for the time being of the Government of India, and the Secretary and Treasurer for the time being of the Bank of Bengal, or such officer or officers as aforesaid, shall receive all interest accruing upon the securities for money in deposit in the Bank of Bengal, or with such officer or officers as aforesaid on account of each and every suit or matter, and, after deducting therefrom the commission of the Accountant-General of the Court, shall enter the same in the account of such suit or matter.

Rule 15.—Where periodical payments are directed to be made out of any fund in Court, the procedure prescribed by the last preceding rule shall be followed with respect to the first of such payments. Every payment after the first shall be made as follows:—Upon the application of the person or persons entitled to such payment, the Accountant-General of the Court shall issue a cheque or draft for the amount upon the Controller of Currency for the time being of the Government of India and the Secretary and Treasurer for the time being of the Bank of Bengal, or such officer or officers as aforesaid, in favour of such person or persons: and the Secretary and Treasurer of the Bank of Bengal, or such officer or officers as aforesaid, in every such case, shall take and keep the cheque or draft, and pay the amount specified therein without requiring the production of any further copy of the decree or order under which such payment is to be made, or any other document.

Rule 18.—For the purpose of carrying into effect any decree or order for the payment of money or delivery of Government securities out of Court, the Controller of Currency for the time being of the Government of India and the Secretary and Treasurer for the time being of the Bank of Bengal, or such officer or officers as aforesaid with the privity of the Accountant General of the Court, shall be at liberty to sell and sub-divide the Government securities standing to the credit of such fund, or a sufficient portion thereof.

Rule 19.—Where money, or securities for money, shall be paid or delicvered into Court under rule 13, or where interest shall be received under rule 11, the Controller of Currency for the time being of the Government of India, and the Secretary and Treasurer for the time being of the Bank of Bengal, or such officer or officers as aforesaid, shall debit the commission payable thereon to the Accountant General of the Court, in the account of such money, security for money or interest, and shall credit the amount in the commission account of the Accountant General of the Court.

Rule 20.—The Controller of Currency for the time being of the Government of India and the Secretary and Treasurer for the time being of the Bank of Bengal, or such officer or officers as aforesaid, shall, at the commencement of every quarter, transfer to the Government account at the Bank

of Bengal the amount placed to the credit of the commission account of the Accountant General of the Court during the previous quarter. On such transfer being made, the Accountant General of the Court shall notify the same to the Accountant General of Bengal.

Rule 21.—Where fines are imposed by the Court or monies are recovered from sureties on recognisances estreated by order of the Court, the same shall be paid to the Accountant General of the Court, and shall by him be paid into the Government account at the Bank of Bengal, less awards to prosecutors. The Accountant General of the Court shall, at the commencement of every quarter, deliver to the Controller of Currency for the time being of the Government of India an account of the fines realised and compensation to prosecutors awarded out of them.

Rule 43.—Where a purchaser at a sale by the Registrar shall obtain an order for the payment into Court of the balance of his purchase-money, the order shall be drawn up with a direction for the transfer by the Registrar of the amount deposited with him on account of the purchase-money less his commission (unless the same shall have been already paid), to the Controller of Currency for the time being of the Government of India, and the Secretary and Treasurer for the time being of the Bank of Bengal, with the privity of the Accountant General of the Court, to the credit of the suit or matter to the credit of which the balance of the purchase-money is to be paid.

* The figures under "Rice, husked" represent the prices of common rice

NOTE.—These statistics are compiled from the fortnightly returns furnished by District Officers to Local Governments and Administrations, etc. They relate to the wholesale prices in the principal markets (not necessarily district head-quarters) in each province on the last (or nearest market) day of each fortnight.

(The figures state prices in rupees per ten maunds)

COTTON PRESS RETURN.

No. 19 of 1917-18.

PREFATORY NOTE.

The Cotton Season, 1917-18.

The yield of the cotton crop of 1917-18 was estimated in February, 1918, at 4,035,000 bales on an area of 24,781,000 acres, as compared with 4,489,000 bales on an area of 21,745,000 acres, the revised final figures of the preceding year. There was a decrease of 10 per cent in outturn. There were 1,331,000 bales of cotton pressed in the pressing factories, and 430,000 bales of unpressed cotton received in the spinning mills, from 1st September, 1917, to 15th June, 1918, as against 1,902,000 bales and 413,000 bales, respectively, during the corresponding period of last year, showing a decrease of 30 per cent in the case of presses, but an increase of 4 per cent in the case of mills. Too much stress should not be laid on the accuracy of these returns as a means of checking the forecast estimates of outturn, as there is at present no system in vogue of furnishing complete returns from all presses and mills. The figures for the Native States of Hyderabad, Central India, Rajputana, and Mysore are, as will be seen from the footnotes to the tables, mostly incomplete and have been excluded from this comparison.

Director of Statistics.

DEPARTMENT OF STATISTICS, INDIA

CALCUTTA, AUGUST 12, 1918.

Final General Memorandum on the WHEAT Crop of 1917-18.

This memorandum is based on returns of finally revised acreage and outturn of the wheat crop of the season 1917-18, received from local authorities, and relates to 98·5 per cent of the total wheat area in India. The returns, therefore, cover practically all the important wheat-growing areas in India.

The total area is 35,497,000 acres as against 32,940,000 acres last year, or an increase of 8 per cent. The total yield of the crop, which has been already harvested, is estimated at 10,174,000 tons (47,479,000 quarters of 480 lbs. each), as against 10,234,000 tons (47,759,000 quarters) last year, or a decrease of 0·6 per cent. As compared with the average of the preceding five years, this year's yield shows an increase of 6 per cent.

The detailed figures are as follows:—

(1) Area (in thousand acres).

Provinces and States	1917-18	1916-17	Increase + or Decrease −
Punjab (*a*)	11,287	10,737	+550

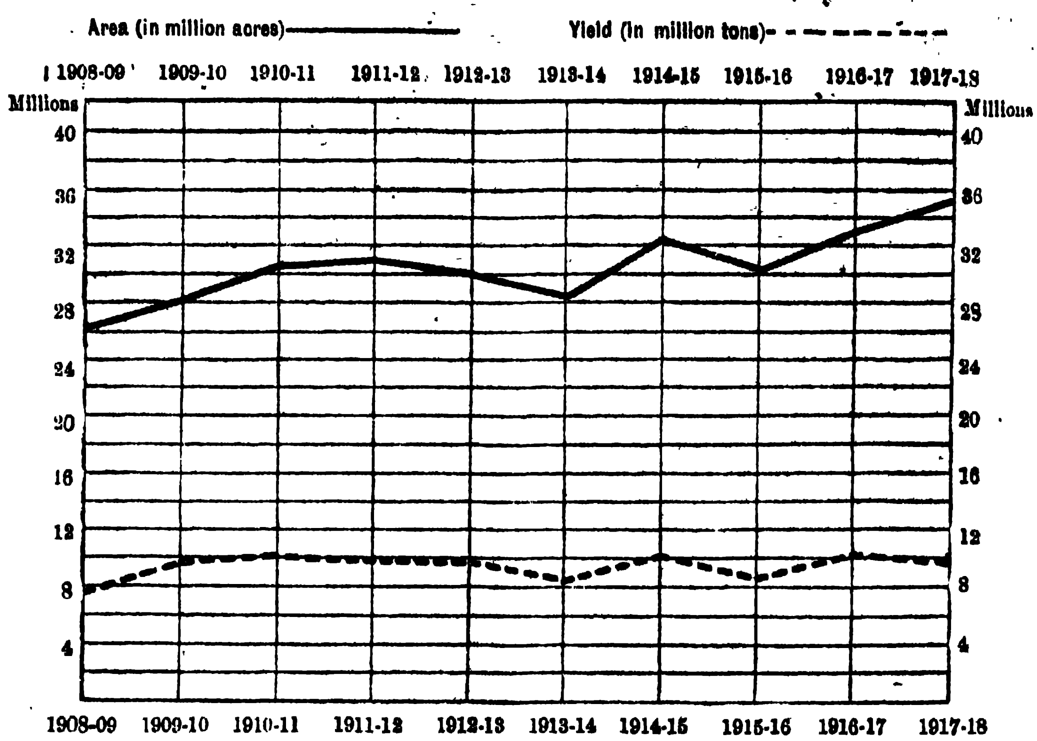
Mysore .	1	1		318	378
TOTAL	10,174	(*b*) 10,234	−60	643	696

It will be seen that the present estimate of yield, as against the final figures of last year, shows an increase of 25 per cent in the Punjab, 13 per cent in Bombay, 9 per cent in the North-West Frontier Province and Delhi, each, and 4 per cent in Sind and Rajputana, each. On the other hand, Central Provinces and Berar show a decrease of 32 per cent, Central India 27 per cent, Bihar and Orissa and Bengal 17 per cent, each, Ajmer-Merwara 9 per cent, and the United Provinces 6 per cent.



In addition to the areas for which particulars are given above, the crop is grown in certain other tracts (namely, Burma, Madras, Manpur Pargana, and the Kashmir State) for which no reports are made, and the average area so grown for the last five years has been about 440,000 acres with an estimated yield of 150,000 tons.

Chart.—The chart on page 2 illustrates the present estimates of area and yield as compared with those of the preceding nine years.

(*a*) Including Native States.

Wheat in foreign countries.—From the latest information published by the International Institute of Agriculture, Rome, the estimates of area and yield of the principal wheat-growing countries appear to be as follows :—

	Area (acres.)		Yield (tons)	
	1917-18	1916-17	1917-18	1916-17
United States .	(a)42,152,000	46,763,000	(b)	17,455,000
Canada	(a)711,000	13,544,000	(b)	6,660,000
Argentine . . .	17,868,000	16,082,000	5,844,000	1,877,000
Australia . . .	9,853,000	11,525,000	3,277,000	4,065,000
Italy	(b)	10,691,000	(b)	3,742,000
France . . .	11,355,000	10,607,000	(b)	4,321,000
Spain	9,993,000	10,219,000	(b)	3,769,000

From a report published by the Department of Trade and Commerce, Canada, dated 14th May, 1918, it appears that the "winter killing" was very severe in Canada, and the area sown (711,000 acres) in 1917-18 with winter wheat was reduced by 51 per cent to 348,670 acres.

From unofficial sources it appears that in the United States of America harvesting of the new wheat crop is making progress in the south, and that the quality of the new crop is excellent. The total yield of wheat (both winter and spring) is estimated at 24,937,000 tons as against 17,411,000 tons in 1916-17.

REWARDS.

No. 1885.—The following rewards have been granted to the undermentioned Indian officers, non-commissioned officers and men for acts of gallantry or devotion to duty in the field :—

Awarded the Indian Order of Merit (2nd class).

Subadar Sahib-i-Haq, Infantry.

For conspicuous gallantry and devotion to duty on the 5th November 1917. Though severely wounded he continued to command his platoon with marked skill until again severely wounded. He has repeatedly been recommended for gallantry and good work.

Jemadar Gulab Din, Infantry.

For conspicuous gallantry and initiative on the 5th November 1917 in leading his platoon throughout the day under fire. When the remainder of the regiment had been held up he attempted to get his platoon forward to an enemy strong point, only desisting when he was left with only one sepoy.

728 Havildar Mastan Singh, Infantry.

For conspicuous gallantry in action on the 5th November 1917.

Previous to an attack in the morning, this non-commissioned officer went on patrol and brought in most valuable information. He then drove out an enemy entrenched picquet. During the subsequent attack he took command of a platoon when its commander was wounded and showed great bravery, skill and determination.

5564 Sepoy Mukhmad Shah, Infantry.

702 Sepoy Sarwar Khan, Infantry.

For conspicuous gallantry in action on the 5th November 1917. Orders were given to put out aeroplane signals at a time when heavy fire was sweeping over the captured trench. Without hesitation or direct order, Sepoy Mukhmad Shah stepped out of the trench with the signals and within fifteen seconds was hit by three bullets and staggered back into the trench. On his own initiative and without hesitation Sepoy Sarwar Khan deliberately completed the signal, during which he also was wounded. Both men displayed conspicuous bravery and determination.

3420 Sepoy Bir Singh, Infantry.

For conspicuous gallantry during an attack on the 5th November 1917. When his company had occupied the enemy's second line he repeatedly went with messages over ground swept by fire. Although wounded he continued to carry on his duties as runner, all the other company runners having become casualties.

1429 Colour-Havildar Bhawani Datt, Infantry.

For conspicuous gallantry and marked initiative in action on the 5th December 1917. He took command of his platoon early in the day, on his platoon commander becoming a casualty, and handled it with great ability. With great boldness he led his platoon in a charge on an enemy trench that was causing much trouble, capturing 20 and killing the remainder of the garrison. His prompt action undoubtedly saved many casualties and enabled the rest of the line to advance.

Awarded the Indian Distinguished Service Medal.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

PUBLIC.

Simla, the 5th August 1918.

RESOLUTION.

The annual returns showing the mortality from wild animals and venomous snakes have been received from local Governments and Administrations.

The total number of persons killed by wild animals in British India fell by 4·5 per cent. from 2,278 in 1916 to 2,176 in 1917. Tigers were responsible for 1,009 deaths, leopards for 339, wolves and bears for 280, and elephants and hyenas for 89. Of the 459 deaths from "other animals" 89 are assigned to pig and 199 to crocodiles or alligators. As usual, Bihar and Orissa heads the list with 655 deaths, although this number is 192 less than that of the previous year. The decrease was shared by all districts of the province except Ranchi, Bhagalpur, Balasore, and Darbhanga. In view of the high mortality from tigers in the districts of Angul, Ranchi and Manbhum, special measures were taken to check the destruction of human life in those areas, which resulted in the destruction of one or two notorious man-eaters, a fact which probably accounts for the improved figures of the year. It is stated that these special measures will be continued till their effect can be further judged. Deaths from tigers in the Madras Presidency during 1917 numbered 347, or 15 more than in 1916. The number of deaths from tigers in other provinces calls for no comment. Deaths from elephants were highest in Assam, from tigers in Bihar and Orissa, from leopards in Madras, from bears in Bihar and Orissa, and from wolves in the United Provinces. Some provinces, such as Bombay, the Punjab, and the North-West Frontier Province, are particularly free from the ravages of wild animals, while others, especially Bihar and Orissa and Madras, with their large hill and jungle tracts, are not so fortunate.

2. The mortality from snake bite among human beings rose from 23,640 in 1916 to 25,918 in 1917. Bombay, Bengal, and the Central Provinces were mainly responsible for the increase. The number of deaths still continues to be very large in the United Provinces, Bihar and Orissa, and Bengal, the figures being 6,481, 5,885 and 4,393, respectively.

3. During the year 1917, the total number of wild animals destroyed was 19,476, among which were 1,295 tigers, 6,037 leopards, 2,784 bears, and 2,147 wolves. The total amount of rewards paid under this head was Rs. 1,66,945, as against Rs. 1,71,974 in the preceding year. The number of snakes destroyed [illegible] from 65,705 to 73,068, but the rewards paid for their destruction [illegible] from Rs. 4,319 to Rs. 3,423.

4. Under the Indian Arms Act, 1878, 19,316 licenses were issued in forms XVI, XVII and XVIII in 1917, against 20,577 in the previous year. The total number of licenses in force was 1,36,707 as compared with 1,37,183 in 1916.

ORDER.—Ordered that a copy of this Resolution (and annexures) be forwarded to local Governments and Administrations* and that it be published in the supplement to the *Gazette of India* for general information; also that a copy be forwarded to the Director of Statistics.

*Including the Chief Commissioners of the North-West Frontier Province and Ajmer-Merwara and the Resident in Mysore.

S. R. HIGNELL,
Offg. Secretary to the Government of India.

		GRAND TOTAL	1,489	1,091

The 1,091 deaths reported above are 46 less than the total for the previous week and 1,342 less than the total for the corresponding week of 1917.

During the month of July 4,300 deaths from plague were recorded in India, as compared with 12,872 in July 1917. The mean July plague mortality of the last twenty years is 5,934. July is the month of minimum plague incidence for India as a whole.

Of the 4,300 plague deaths recorded in July rather more than a third were reported from the Bombay Presidency, a markedly less proportion than is usal in this month. The only part of India where the incidence of the disease was appreciably in excess of normal was the Madras Presidency which contributed 815 to the July plague death roll as compared with a normal of 229.

In view of the deficient atmospheric humidity prevailing in most parts of the country the plague outlook is very satisfactory.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 15th August 1918, based on the Indian Daily Weather Reports of the period.

1. Rainfall occurred chiefly in Burma and northeast India. At the end of the week a depression was forming off the Orissa coast, and had caused an increase of rain in the Peninsula.

2. *Burma.*—Nearly general rain fell in Lower Burma every day of the week, and in Upper Burma on the 8th and 14th.

Northeast India, including Orissa.—There was nearly general rain in Assam on the 8th, 9th and 14th, in Bengal on the 8th, 9th and 10th, and in Bihar and Orissa on the 8th and 9th.

The United Provinces, Central India and the Central Provinces.—Rain fell at nearly every station in the Central Provinces East on the 11th and 14th.

Northwest India.—Nearly every station in Kashmir had rain on the 9th. A few falls of rain were reported during the week from the north Punjab, the North-West Frontier Province, northeast Baluchistan and Gujarat.

The Peninsula.—Rainfall was nearly general on the west coast and in Mysore on the 14th, in Hyderabad South on the 10th, 11th and 13th, in the Madras Deccan on the 9th and 13th, and on the north Madras coast on the 10th, 13th and 14th.

3. The principal amounts of rainfall reported were as follows :—

August 8th. Tavoy 4·13″, Moulmein 2·05″, Gauhati 2·86″, Cox's Bazar 3·70″, Darjiling 2·57″, Chittagong 2·87″, Barisal 2·02″, Calcutta 2·78″, Darbhanga 6·24″ and Simla 1·39″.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 10th August 1918.

Burma.—The rainfall during the week was general throughout the Province. The fall was heavy on the Arakan and Tenasserim coasts and moderate elsewhere in Lower Burma. In the dry zone it was poor. Ploughing, sowing and transplantation of winter rice are proceeding normally in Lower Burma and in irrigated tracts of Upper Burma. Cultivation of dry crops continues in Upper Burma. The condition of standing crops is good in Lower Burma and poor to fair in Upper Burma. Livestock is generally healthy. The price of unhusked rice has risen slightly but is still below normal. The market for white rice is firm at Rs. 257 and annas 8 per hundred baskets for specials.

Assam.—The weather during the week was seasonable. Heavy rains and floods have damaged crops in six districts. Harvesting of autumn rice and jute, manufacture of tea and ploughing for and transplanting of winter rice are in progress. Cattle disease is reported from seven districts. The price of common rice is stationary.

Bengal.—Seasonable rain fell throughout the Province, improving the prospects of standing crops to some extent and greatly facilitating the transplantation of winter paddy, especially in western Bengal. Harvesting of autumn paddy and jute is proceeding and the outturn is expected to be fair. Damage to standing crops by excessive rainfall, floods and insects is reported from a few places. Prospects of winter paddy and sugarcane appear to be satisfactory. The price of common rice has risen by about 2·7 per cent.

Bihar and Orissa.—The rainfall during the week was general over the Province, the fall being mostly heavy in Bihar and in Sambalpur and generally light to moderate in the rest of the Province. The rainfall has benefited standing crops and has facilitated transplantation of paddy in Bihar. More rain, however, is wanted in parts of Orissa and Chota Nagpur. The price of common rice has risen in seven districts, fallen in six and remained stationary in the remaining districts as compared with that of the preceding week. Cattle disease is reported from fifteen districts. The condition of standing crops in the Feudatory States of Orissa is good but more rain is wanted in some States for transplantation of paddy.

United Provinces.—Report not received.

Punjab.—Except for light showers in parts of a few submontane and western districts the weather remained dry. Rain is badly wanted everywhere, specially for unirrigated crops which are withering. Rice, maize and other autumn crops are being sown. The area sown is below normal to normal. Standing autumn crops are generally average on irrigated and considerably below average on unirrigated areas. Cattle are generally healthy and fodder and water are sufficient but shortage of fodder is reported from a few districts. Prices have risen slightly and range generally between warning and scarcity rates. Price of wheat:—Rawalpindi 6¾, Lahore and Lyallpur 8 and Ambala and Ferozepore 8¼ seers per rupee.

North-West Frontier Province.—Slight rain has fallen in places. More rain is badly needed. The condition of standing crops is average but in the Peshawar district it is below average on unirrigated areas. Sowing of autumn crops is proceeding normally. Wheat is selling in Peshawar at $9\frac{3}{16}$ and in Dera Ismail Khan at 10 seers per rupee.

Jammu.—Slight rain fell. Prices are stationary.

Kashmir.—The week was generally dry and hot. Standing crops are suffering from want of rain. Cattle disease prevails in Muzaffarabad. Prices are rising.

Rajputana.—The weather during the week was cloudy. Crops, wherever sown, are withering owing to the long break in the rains. Further agricultural operations have been stopped. Cattle are growing weak owing to scarcity of fodder. Prices are rising.

Central India.—The rainfall during the week was partial but insufficient. Autumn crops are being sown and weeded. Lands are being prepared for spring crops in the Southern States. Standing crops are in fair condition but are withering for want of rain. Agricultural stock is in fair to good condition. Scarcity of fodder prevails almost everywhere. Prices are high.

Central Provinces.—The weather during the week was warm and occasionally cloudy. Eleven districts received light to moderate rain, nowhere exceeding 1¾ inches. Sowings still continue in a few districts and germination of crops already sown is satisfactory. Transplantation and thinning of rice and weeding continue. The condition of standing crops is generally good and prospects are favourable, but more rain is required in Damoh, Mandla, Nemar, Betul, Bhandara and parts of Berar. The supply of fodder is inadequate in parts of four districts but pasturage is sufficient almost everywhere. Agricultural stock is in good condition. Prices remained stationary or fluctuated slightly.

Feudatory States :—There was good rain in the States. Crops are faring well.

Bombay.—Good rain fell during the week in the Konkan, Nasik, Savantvadi and Kolhapur and slight to fair elsewhere in the Presidency Proper. No rain was received in Sind. More rain is urgently needed in almost all districts. Sowing has been retarded in Hyderabad, the Panch Mahals, Ahmedabad, Dharwar and parts of the Deccan. Transplantation has been retarded in parts of Sind and Surat and continues in the Konkan. Germinated seedlings have been damaged slightly by insects in parts of Larkana and Karachi and are withering in parts of Sind, Kaira, the Deccan, the Karnatak, Kathiawar, Baroda, and Rewa Kantha. The fodder supply is deficient in the same areas and also in Ahmedabad and the Panch Mahals. Agricultural stock is generally sufficient. Prices of food grains have risen slightly in the Karnatak and are generally steady elsewhere.

Hyderabad.—The rainfall during the week was good in five districts and fair to light elsewhere. The average fall was 1 inch 27 cents. The condition of autumn crops is unsatisfactory. The early rice crop is in fair condition. Sowings continue. Cattle are healthy but weak for want of fodder in some districts. Prices of grains continue high. *Juar* is selling at 8½ seers per rupee in Gulbarga.

Mysore.—The week was slightly wet. Ploughing and sowing operations are in progress. Standing crops are withering for want of rain. Cattle are generally healthy. Prices are fluctuating.

Coorg.—Slight rain fell during the week. More is badly needed. Ploughing for and transplanting of rice continue. Cattle disease prevails in some villages. Water and fodder are sufficient. The public health is fair. Prices of food grains are high.

Madras.—The week was rainy on the west coast and in the hills and generally showery elsewhere. Standing crops are in fair to good condition generally. Harvesting of paddy, sugarcane and dry crops is proceeding with outturn fair to normal generally. Sowings of paddy, sugarcane and dry crops are proceeding normally. The condition of cattle is generally good. Water continues to be insufficient in the greater portion of the Presidency. Prices of paddy are fairly steady and those of dry grains are inclined to rise.

All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at Simla and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

" It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette* and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*.

J. P. HEWETT,

Secretary to the Government of India."

NOTICES.

THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2. *Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. These should be consulted before an application is made to the Controller.

3. *Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India applications should be made to the patent offices in the countries concerned.

4. *Fees* are payable in *cash* and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

5. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with *pictures, photographs, etc.*, for which copyright is obtainable under the Indian Copyright Act, 1914.

6. *Printed Specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

Review of the Reports on the Administration of the Mints at Calcutta and Bombay for the year 1917-18.

I.—Working of the Mints.

Receipts, etc., of Gold.

All gold coin and bullion imported into British India subsequently to the 29th June 1917 was acquired by Government under the Gold (Import) Ordinance which was passed into law as the Gold (Import) Act (No. XXII of 1917) on the 27th September. The amount of gold so acquired was Rs 18,36,66,547. The following table gives the total receipts in 1917-18 at the two Mints on account of acquired gold as well as on account of tenders of gold coins received from the Presidency Banks and the public, including minor receipts from Government treasuries :—

	CALCUTTA.	BOMBAY.	TOTAL.
	Value in Rupees.	Value in Rupees.	Value in Rupees.
Sovereigns and half sovereigns including short-weight and uncurrent coin	1,66,09,099	5,26,65,115	6,92,74,214
Foreign coin	3,74,28,189	3,07,52,870	6,81,81,059
Gold bullion	3,45,63,298	4,29,86,809	7,75,50,107
TOTAL	8,86,00,586	12,64,04,794	21,50,05,380

The Calcutta figures exclude 7 consignments of sovereigns valued at Rs. 2,77,76,985 received on behalf of the Currency Reserve from the Commonwealth Bank of Australia.

2. The arrangement for the custody on behalf of the Bank of England of consignments of gold from the Indian Mines and South Africa was continued at the Bombay Mint. Out of the stocks thus held, gold to the value of Rs. 4,60,43,622 was transferred during the year to the Currency Gold Bullion Account under special arrangements concluded between the Government of India and the Bank of England. £2,485,820 worth of African gold was also shipped to Ottawa on behalf of the Bank of England.

Coinage of Silver.

3. A considerable quantity of silver coinage was carried out at the Mints during the year under review, though the amount is somewhat smaller than in the previous year. The details of the silver coinage executed at the two Mints for the Government of India during the year 1917-18 as given in Statement No. II attached to the Mint Masters' Reports are shown in the statement below :—

	CALCUTTA.	BOMBAY.	TOTAL.
	Value in Rupees.	Value in Rupees.	Value in Rupees.
Rupees	9,07,00,000	13,51,33,293	22,58,33,293
Half-rupees	...	44,11,140	44,11,140
Quarter-rupees	52,67,909	...	52,67,909
Eighth-rupees	31,94,945	...	31,94,945
TOTAL	9,91,62,854	13,95,44,433	23,87,07,287
TOTAL FOR 1916-17	16,23,66,945	14,53,40,381	30,77,07,326

The bulk of the coinage was from purchased silver. Withdrawn and uncurrent coin of the total nominal value of Rs. 1,26,76,902 was received at the two Mints for recoinage. The demand for small coin has been steadily increasing during the past two years and a large amount of fractional silver coinage was necessary to keep up stocks.

4. Besides the above, the following subsidiary silver coinage was executed during the year on behalf of other Governments:—

Denomination of coin.		Calcutta Mint.		Bombay Mint.		Government on whose behalf the Coinage was executed.
		Tale.	Value in Rupees	Tale.	Value in Rupees.	
Ceylon	50 cents	1,072,810	5,36,420	...	...	Ceylon Government.

	2 "	...	...	2,861,190	6,24,378	

Nickel and Bronze Coinage.

5. One-anna nickel coins numbering 58,066,665 pieces of the nominal value of Rs. 36,29,167 were struck during the year at the Bombay Mint against 39,087,087 pieces coined during the previous year. In addition, the Bombay Mint carried out nickel coinage for the Egyptian Government consisting of 5 and 10 millieme pieces, valued at Rs. 5,56,579.

During the closing months of the year, the coinage of the new nickel two-anna pieces was commenced. The designs and punches for the new coin were prepared at the Calcutta Mint but the actual coining was taken up at both Mints. By the 31st March 1918, 3,848,000 pieces of the nominal value of Rs. 4,81,000 had been turned out at the two Mints.

6. The bronze coinage was as usual confined to the Calcutta Mint and consisted of pice, half-pice and pie pieces of the aggregate value of Rs. 16,03,600 as compared with Rs. 2,65,900 in 1916-17. This large quantity of bronze coinage was necessitated by an increase in the demand, and by the withdrawal of the old copper coin, which has been going on at treasuries during the past few years.

The Calcutta Mint also coined Rs. 20,000 worth of copper cents and half cents for the Ceylon Government and Rs. 4,80,000 worth of bronze pennies and half-pennies for the Australian Commonwealth.

Operative losses.

7. *Silver*—The loss on the silver coinage calculated according to the method hitherto in use worked out to Rs. 109·7 per lakh at the Calcutta Mint and Rs. 56·86 per lakh at the Bombay Mint. This rate compares favourably with that noticed in the previous year as the operative loss at the Calcutta Mint.

The Mint Master, Bombay, has however suggested that the operative losses should be calculated on a different basis, and the resulting rates arrived at by this method are for Calcutta 44·2 per lakh of standard tolas and for Bombay 18·28.

The difference between the operative losses at the two Mints is largely to be attributed to the difference in the silver used for coinage. Thus the Calcutta Mint received in uncurrent coin almost double the amount of such coin received in Bombay for recoinage, while the amount of sycee silver used in Bombay for coinage was very considerably in excess of that received at the Calcutta Mint.

8. *Nickel.*—The total operative loss written off during the year on account of nickel coinage at the Bombay Mint amounted to 51 maunds giving a percentage of 0·72 per 100 maunds of metal coined. Owing to a shortage in the supplies of pure nickel, a large proportion of cupro-nickel scrap obtained from Ordnance factories in India was utilised. The scrap contained an appreciable amount of dirt and extraneous matter, and this cause accounts for the higher percentage of loss during the year.

9. *Bronze.*—The operative loss on account of the bronze coinage for the Government of India, including melting and coinage losses, amounted to 119 maunds giving an average rate of 0·89 per 100 maunds of bronze pieces coined.

Revenue and Expenditure.

10. The statement below gives the usual figures of the revenue and expenditure including interest on capital outlay and other *pro-formâ* charges of the two Mints for the years 1916-17 and 1917-18:—

Year.	Revenue.			Expenditure.		
	Calcutta.	Bombay.	Total.	Calcutta.	Bombay.	Total.
	Rs	Rs.	Rs.	Rs.	Rs.	Rs.
1916-17 . .	35,04,792	37,14,093	72,18,885	18,01,996	14,30,799	32,32,795

The bulk of the revenue at both Mints was derived from seignorage on rupee-coinage and other similar dues charged on coinage executed for Foreign Governments, as will appear from the following table:—

	Calcutta.	Bombay.	Total.
	Rs.	Rs.	Rs.
Seignorage on new rupee coinage . .	17,65,122	25,49,846	13,15,268

Total .	18,91,429	27,72,265	46,66,694

11. The expenditure on salaries and establishments at the two Mints compares as follows with that incurred during 1916-17.

	Calcutta Mint.			Bombay Mint.			Both Mints.		
	1916-17	1917-18	Increase + or decrease — in 1917-18.	1916-17	1917-18	Increase + or decrease — in 1917-18	1916-17	1917-18	Increase + or decrease — in 1917-18

Munitions Work.

12. Munitions work was carried on at both Mints, though to a smaller extent than in previous years owing to a reduction in the demands from the

Ordnance Department. The work consisted as usual of the manufacture of copper driving bands for shell-bodies, the building and repair of ambulance bodies for motor cars and the supply of other miscellaneous requirements for the Military Department, the Red Cross and St. John's Ambulance. Successful experiments were undertaken at the Calcutta Mint in connection with the manufacture of muntz metal sheathing for the Controller of Ship-building.

Miscellaneous Work.

13. The Mints were also engaged as usual on the supply of dies, medals, etc., the manufacture and adjustment of scales and weights and other miscellaneous work for Government departments and the public.

14. The receipts on account of miscellaneous work done at the two Mints and the cost were as follows :—

Year.	CALCUTTA MINT.			BOMBAY MINT.			BOTH MINTS.		
	Cost of work done.	Amount realised.	Profit.	Cost of work done.	Amount realised.	Profit.	Cost of work done.	Amount realised.	Profit.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

The Bombay figures include a sum of Rs. 30,726 on account of melting fees on the Indian Mines' and other gold deposited at the Mint.

Counterfeit Coins.

15. There was a substantial reduction in the number of counterfeit silver coin of the several denominations cut at Treasuries during the year as will appear from the following figures ;—

	Rs.	½ Rs.	¼ Rs.	⅛ Rs.	TOTAL.
1916-17 . .	117,091	5,937	7,956	5,343	136,327
1917-18 . .	95,208	4,737	6,781	4,454	111,180

The following table gives the provincial distribution of the figures for the year 1917-18.

TOTAL .	95,208	4,737	6,781	4,454	111,180

Of 95,208 counterfeit rupees, 41,028 were detected at Railway Cash offices, the heaviest receipts being 8,673 from the East Indian Railway, 4,128 from the Bengal and North-Western Railway, 4,073 from the Madras and Southern Mahratta Railway and 3,883 from the North-Western Railway.

16. *Mints.*—Counterfeit silver coins numbering 11,041 were received at the two Mints during the year against 10,850 in the preceding year.

The details of the two years are given in the statement below :—

	Received in remittances of uncurrent coin from treasuries		Received from treasuries and other provinces under standing orders.		Received at the Mints for examination.	
	1917-18	1916-17.	1917-18.	1916 17	1917-18.	1916-17.

Total .	3,827	4,108	3,699	4,159	3,515	2,253

The counterfeits received for examination at the Mints were mostly of inferior workmanship and composition.

Offences against Coinage.

17. The following table compares the number of offences against coinage brought to trial during the calendar year 1917 with the corresponding figures of the previous year. There were noticeable decreases both in the number of cases brought to trial and in the number of persons convicted in the Punjab and Burma :—

	NUMBER OF CASES BROUGHT TO TRIAL		NUMBER OF PERSONS TRIED		NUMBER OF PERSONS CONVICTED.

18. The Mint Masterships at Calcutta and Bombay were held respectively throughout the year by Lt.-Col. A. L. C. McCormick, R. E. and Major G. H. Willis, C.I.E., M.V.O., R.E.

II.—Working of the Assay Offices.

Number of assays.

19. The following statement shows the number of gold and silver assays made in 1917-18 and the previous year :—

YEAR.	CALCUTTA ASSAY OFFICE.		BOMBAY ASSAY OFFICE.	
	Gold	Silver.	Gold	Silver.
1916-17	1,580	49,899	8,439	58,361
1917-18	2,643	32,505	9,010	48,111

There was a reduction in the number of silver assays at both offices. The total number of gold assays made at the Bombay Assay Office shows an increase over the record figure of 1916-17. Only a third of the total gold assays, however, was in connection with work for the Mint, the balance being private assays.

Average fineness of silver meltings.

20. The average fineness *per mille* of silver meltings for the silver coinage during the year was as follows:—

	Calcutta.	Bombay.
Rupees	916·141	915·857
Quarter-rupees	915·796	...
Eighth-rupees	915·718	...

23. Lt.-Col. J. Lloyd Jones, I.M.S., who held the post of Assay Master, Bombay, for the greater part of the last 7 years including the year under review, retired on the 28th April, 1918. He was connected with the Assay Department for 18 years.

The post of Assay Master, Calcutta, was held by Lt.-Col. J. J. Bourke, I.M.S.

General.

24. The review of the year's operations indicates that very heavy demands were made on both Mints, as also on both Assay Offices, in connection with the currency requirements of the Government of India and of other Governments. The tale of Government of India coin minted at the Calcutta Mint was 273,739,198 and at the Bombay Mint 203,190,238 pieces in addition to a coinage for other Governments amounting to 10,048,143 pieces. My acknowledgments are due to both Mint Masters and to both Assay Masters for their ready response to the demands thrown on them and for their efficient administration of their departments.

CALCUTTA;
The 16th August 1918.

M. M. S. GUBBAY,
Controller of Currency.

REPORT ON THE WORKING OF THE CALCUTTA MINT.

No 1484, dated the 13th June 1918.

FROM—Lieutenant-Colonel A. L. C. McCormick, R E. Master of the Mint, Calcutta,

To—The Controller of Currency, Calcutta.

I have the honour to submit the following report on the operations of the Calcutta Mint, together with the prescribed statements, for the financial year 1917-18.

GOLD.

2. The value of Mint certificates issued against tenders of gold coin received through the Presidency Bank and the public, amounted to Rs 19,99,800, as detailed below :—

Tale.	Classification	Value in Rupees.
331,787	Sovereigns of current weight	1 76,805 0 0
68	Defective sovereigns unfit for re-issue, nominal value	1 020 0 0
1,165	Sovereigns of short weight or not more than 3 grs. less than standard weight, nominal value	21,975 0 0
	TOTAL	19,99,800 0 0

3. In addition to the above, 7 consignments of sovereigns were received on behalf of the Currency Reserve from the Commonwealth Bank and classified as follows :—

Tale.	Classification	Value in Rupees
1,851,353	Sovereigns of current weight	2,77.70,295 0 0
441	Defective sovereigns unfit for re-issue, nominal value	6,615 0 0
5	Sovereigns of short weight or not more than 3 grs less than standard value, nominal value	75 0 0
	TOTAL	2,77,76,[illegible] 0 0

In both the above cases the current weight sovereigns were as usual remitted to the Currency Office.

4. The following receipts represent the gold coin and bullion received during the year on Treasury account :—

Tale.	Classification.	Value in Rupees
16	Sovereigns of current weight unfit for re-issue, nominal value	240 0 0
5	Sovereigns of short weight or not more than 3 grs. less than standard weight, nominal value	75 0 0
53	Sovereigns of reduced weight or more than 3 grs less than standard weight, bullion value	743 9 0
	Gold bullion received from other Government Departments	1,825 15 4
	TOTAL	2,884 8 4

5. The following amounts of gold were acquired under Ordinance III of 1917 :—

Tale.	Description.	Value as per Currency Account.
773,883½	Sovereigns and half sovereigns	1,16,08,210 9 6
Tolas.		
1,633,511·19	American eagles and double eagles	3,51,08,781 10 6
107,882·71	Japanese yen	23,19,107 3 9
1,452,45·25	Bar gold	3,15,53,806 5 2
320·96	Gold leaf	7,665 4 6
	TOTAL	8,35,97,901 1 5

6. Owing to continued demands for gold medals, miniatures and Indian title badges the Mint was obliged to purchase under sanction of Government Rs. 11,675-14-0 worth of fine gold to replenish stock.

7. There were no remittances of gold from Mint balances to England during the year under review.

SILVER.

8. Receipts.—The receipts of silver comprised :—

(a) Bar silver, sycee silver and Mexican dollars amounting to 88,271,110·8 standard tolas and invoiced at Rs. 8,00,81,766-13-10. Details of these receipts are given below :—

Classification	Std. tolas	Invoice value Rs.	A.	P.
Bar silver	74,724,709·1	6,81,64,424	10	10
Sycee silver	10,279,790 5	88,91,292	14	0
Mexican dollars	3,266,611·2	30,26,049	5	0
TOTAL	88,271,110 8	8,00,81,766	13	10

Of the above receipts, 2.252,927 4 standard tolas of bar silver, invoiced at Rs. 20,63,719-7-3 was purchased locally, the remainder being received from the Secretary of State.

The sycee silver amounting to 95·76 lakhs of tolas, and bar silver amounting to 14·91 lakhs of tolas were pre-melted, the other receipts were taken directly into alligation.

(b) Withdrawn and uncurrent coins from treasuries for re-coinage into new coin.

The nominal value of the uncurrent coin receipts amounted to Rs. 83,63,758⅚, details of which are shown in the following table :—

Classification	In lakhs of rupees.
Government Rupees and half-rupees of 1835	3·51
Do. do 1840 (1st issue)	7·46
Do. do. 1840 (2nd issue)	24·06
Coins shroff marked, dumb and defective	9·61
Do worn	35 59
Do. reduced	·19
Do soldered	2·59
George V 1911 coins	·40
Current weight coins unnecessarily cut by Treasuries	·22
TOTAL	83·63

9. As in the case of gold purchased for medals, a silver purchase to the value of Rs. 2,896-5-3 was made to replenish stock.

10. *Coinage.*—A heavy silver coinage was executed in this period, as will be seen from the statement of coinage appended.

11. The silver coinage for the Government of India amounted to 137,331,198 pieces, valued at Rs. 9,91,62,854-6-0 as compared with 189,663,108 pieces, valued at Rs. 16,23,66,945-8-0 in the previous year.

12. A coinage of subsidiary coins for the Ceylon Government was commenced in March 1917, and completed during the year under review. This coinage consisted of 50, 25 and 10 cent silver pieces totalling 2,264,295 coins, valued at Rs. 7,02,365-8-0.

13. *Percentage of good coins.*—The percentages of good coins, obtained from the weight of the metal operated on, are furnished below :—

Denomination of Coin.	Weight of ingots rolled Lakhs of tolas.	Percentage of good coins.
Rupees	1,362·11	66·5
Quarter rupees	83·66	62 9
Eighth rupees	51·66	61·8
Ceylon 50 cents	19·53	42·7
„ 25 cents	5·01	40·5
„ 10 cents	2·98	33·5

The percentages of Government of India coins show an improvement over the figures for last year, though they still remain about 1 per cent. below the average of previous years.* This is due to some extent to the Mint having been compelled to work small silver coins, at frequent intervals, concurrently with rupees, which adversely affects the percentages for the year.

13A. As regards the Ceylon coinage, the percentages of good coin are generally low owing to the small remedy in weight allowed on each individual coin.

In the present instance the percentages are poorer than usual by reason of the fact that the first 5·8 lakhs of tolas coined were remelted as they failed to attain the standard of excellence demanded by the Mints.

14. *Pyx Trials.*—The Assay Master's report on the Pyx coin sent to him for test shows that the weight and fineness of the silver coinage was maintained at the prescribed standard.

15. *Silver Operative losses.*—I append below the usual balance statement showing the loss sustained in silver coinage operations during the period 1st April 1917 to 31st March 1918.

	Rs.	AS.	P.		Rs.	AS.	P.
To Balance	59,07,429	11	2	Issues	10,28,38,928	12	1
Receipts	9,81,27,231	11	3	Operative Loss Government of India	1,08,738	8	10
Refined silver of 1916-17 recovered in 1917-18	13,626	12	10	Operative Loss Ceylon coinage	1,502	0	0
				Closing Balance	10,94,873	6	4
				Refined silver of 1917-18 recovered in 1918-19	4,245	8	0
TOTAL	10,40,48,288	3	3	TOTAL	10,40,48,288	3	3

The above closing balance represents the balance on 31st March 1918, the date on which the operative losses in the different departments were closed.

16. As there were 991·13 lakhs* of standard tolas coined during the year, the rate of loss on the coinage works out to 109·7 per lakh and compares favourably with 114·69 per lakh of the previous year.

* Government of India coinage.

16A. A balance sheet exhibiting the annual minting loss prepared in a form recently suggested by the Mint Master, Bombay, is appended.

This statement shows the value of the purchased silver receipts at invoiced finenesses, as distinguished from Indian assay finenesses and the uncurrent coin receipts at standard, *i.e.*, one rupee per tola. The issues are valued at Indian assay finenesses.

The proposal to substitute a loss statement prepared on these lines for the statement appearing in paragraph 15 is now under discussion between the Mint Masters and the Controller of Currency.

Proposed form of balance sheet for exhibiting the annual minting loss for 1917-18.

N.B.—Rate per lakh on 1001·05 lakhs of standard tolas coined=44·2.

17. The Bullion-keeper was called upon to make good the sum of Rs. 551-13 on account of losses incurred in the month of February 1918 in the Rolling and Cutting Departments.

This amount when recovered from the Bullion-keeper will be credited as an "Operative Gain" in next year's account.

18. The above loss was due to thefts, and the whole case is remarkable as the thief confessed on the day he was discovered that he had secreted some 53 rupee blanks, each weighing 180 grains in his rectum. He was charged with stealing, convicted, and ultimately received two years' imprisonment; certain other persons believed to be implicated in the case were dismissed.

NICKEL.

19. Experiments in connection with the introduction of the 2-anna nickel coin were instituted in April 1917. The designs for the coin, *vide* Nos. 4 and 5 of the frontispiece, were approved by Government in January 1918, and coinage operations in a small way were commenced almost immediately.

20. Owing to a scarcity in the Mint stocks of pure nickel for coinage purposes, enquiries were instituted with a view to discover if any stocks of this metal were held or were available in or near Calcutta, when it was noticed that the Ordnance Factories were advertising for sale by auction, as scrap, fairly large quantities of cupro-nickel derived from old used bullets, but contaminated with lead.

The Ordnance Factories were at once asked to supply the Mint with samples for experimental purposes and to countermand their sales, which they did.

21. Initial experiments with this alloy were carried out in the melting department of the Calcutta Mint, but these failed. In November 1917, however, the Assay Master reported that after cleaning the cupro-nickel with an alkali, and treating it with three consecutive baths of weak nitric acid, he was able to eliminate all but a very small percentage of the lead, and that after melting the refined substance with 5-7% of pure nickel to bring up the fineness of the alloy in nickel the resulting bars were fit for coinage purposes.

22. The Mint experienced considerable difficulty in carrying out these operations on a commercial scale, and it was only towards the close of the year after various trials had been made with different processes of annealing and after the adoption of mechanically revolved aluminium trundling barrels to contain the metal and acid that the small initial refining department could be considered a success.

23. It is calculated that about 226 tons of cupro-nickel scrap have been made immediately available for nickel coinage, by means of this process of refining. In addition to the above it is estimated that the different Arsenals and Ordnance Depôts will be able to supply about 18 tons of this scrap monthly for the duration of the war.

24. As the present Department in which these operations are conducted is small and only capable of supplying the Mint with a limited quantity of cupro-nickel daily, sanction was obtained to erect a larger and more fully equipped nickel refinery on a vacant spot of ground in the Mint compound. The new refinery is in operation.

25. Although there was only a small coinage of nickel 2 annas in January and February 1918, it was possible to show a total coinage of 2,680,000 pieces, valued at Rs. 3,35,000 before the expiry of the year.

26. There was a net loss in refining of 127,311 tolas of cupro-nickel, but this loss includes a certain quantity of dirt and dust received with the bullets. It also includes 39,100 tolas of pure lead which was recovered from the annealing furnaces at the conclusion of the first cleaning operation.

In the Melting and Coining departments there were losses of 12,707 tolas and 17,999 tolas, respectively.

No percentage loss is shown this year as the total coinage, *viz.*, 2,680,000 pieces, is small and much of the work done was experimental and returned to the melting pot. It is probable, however, that the melting loss will always be high because the refining operation does not completely dissolve away all the adhering lead nor does it always remove the aluminium cores often firmly fixed within the bullets, and these have to be slagged off when melting.

The Coining department loss of 17,999 0 tolas includes losses incurred in all the initial experiments including early refining losses.

BRONZE AND COPPER.

27. The Mint executed the following bronze and copper coinages during the year :—

	Pieces.	Valued at. Rs.
(1) Bronze pice, half pice and pies for Government of India . .	133,728,000	16,03,600
(2) Bronze pennies and half pennies	10,560,000	4,80,000
(3) Copper cents and half cents for the Ceylon Government .	3,000,000	20,000
	147,288,000	21,03,600

28. A comparison of this total with that of the previous year shows that it exceeds the latter by 98,413,600 coins. Details of the coinage will be found in Statement II attached to this report.

29. In view of the heavy bronze coinage and munition work, purchases of copper, amounting to maunds 16,683, valued at Rs. 10,86,871-12-0, were brought to account during the year.

30. It was also found necessary to purchase a supply of tin to the extent of maunds 1,089 valued at Rs. 1,31,069-3-0.

31. *Operative Losses.*—The bronze operative losses on the coinage for the Government of India amounted to maunds 119 as detailed below :—

Melting loss 109 mds. @ ·81 per 100 % of new coin.
Coining loss 10 „ @ ·08 „ „ „ „

32. The operative loss on the bronze coinage for the Australian Government amounted to maunds 14-24-0 and on the copper coinage for the Ceylon Government to 9 maunds.

33. The above operative losses are met from the charges for coinage recovered from these Governments.

34. In August 1917, the Cambay State remitted, with the consent of Government, Cambay copper coins weighing maunds 60-15-6 and valued at Rs. 4,591-1. These coins were exchanged for Government of India bronze coin to the nominal value of the above amount.

MUNITION WORK.

35. Munition work continued throughout the year, but there was a considerable diminution in the quantity of driving bands manufactured as compared with the previous year, owing to a reduction in demands received from the Ordnance Department.

36. The weight of copper lost in this work was maunds 143 on maunds 9,553 of metal operated on or at the rate of 1·06 maunds per 100 maunds.

37. In January 1918, the Indian Munitions Board enquired whether the Mint could undertake the manufacture of muntz metal sheathing for the Controller of Shipbuilding.

38. Experiments were immediately instituted and were successful and the Munitions Board was informed accordingly that the demands of the Controller of Shipbuilding for muntz metal could be met.

39. An order for the supply of considerable quantities of this metal to the Royal Indian Marine dockyards at Calcutta and Bombay, is now in hand, but owing to the shortage of suitable spelter in the local market during February to April 1918, the work has been considerably delayed, but will, it is expected, be completed in September 1918.

MISCELLANEOUS.

40. The die and engraving departments and the workshops of the Mint were as usual kept busy with much miscellaneous work. This work included the striking of medals, etc., for the Army Department and other branches of the Government service in addition to private institutions and colleges.

41. Uncertain and protracted arrivals of steel from England for the manufacture of dies was a continued source of anxiety to the Mint during the year. When matters were at their worst, a fairly large quantity of jumper or crowbar steel was purchased as an experiment at a comparatively cheap rate in the bazar. The experiment proved most successful, and by means of this steel coinage operations were carried out throughout the year without interruption. The information derived from experiment was communicated to the Bombay Mint, where, it is believed, this class of steel was also successfully employed.

42. All new coins, medals, etc., struck in this Mint during the year are illustrated on the frontispiece of this report. These were all designed in the Mint with the exception of the matrices and punches for the obverse of the King George's college medal (No. 7 on the plate) which were designed and prepared by Messrs. Wyon & Co., London.

43. In the centre of the frontispiece is exhibited a print (No. 10) from a small photograph of a new and interesting machine recently received for trial from the firm of Messrs. Siemens Bros., Ltd., of Calcutta.

44. This machine, the Siemens-Hart rupee tester, as its name implies, has been constructed for the purpose of mechanically eliminating, as far as practicable, false coin from remittances received into treasuries and Mints for examination and recoinage.

45. In the Indian Mints up to the present time the elimination of spurious rupees has invariably been carried out by visual examination, conducted by specially trained men (shroffs) and there has always been considerable difficulty in checking the work of these men.

46. The idea of making a machine to check the shroff's work originated with Mr. Hart, 1st Assistant to the Mint Master, who placed his plans at the disposal of the above-mentioned firm of Messrs. Siemens Bros., who in their turn forwarded Mr. Hart's suggestion to England, where the present machine was finally designed and constructed.

47. The machine is comparatively simple. Rupees are placed by hand into a hopper, where a wheel, by means of projecting teeth fixed in the periphery on rotation, ejects one coin at a time and causes every coin so ejected to rotate on edge and roll down a narrow inclined plane fitted with side pieces or guide strips.

48. This inclined plane delivers the coins into an intense magnetic field between the poles of two electric magnets.

49. When passing through this field, eddy-currents, or foucault-currents, are generated in the moving masses of metal. The masses of metal or coins in consequence experience retardations in proportion to the currents generated in them. Coins of superior conductivity (good coins) having the greater currents generated in them, experience most retardation, and fall into a nearer receptacle, whilst coins of inferior conductivity (base coins) experience least retardation and are carried by their greater velocity into a further receptacle. In this manner false coins are quickly and readily sorted out from genuine ones.

50. As regards accuracy the machine is probably quite as accurate in results as the induction balance, but is practically automatic and very much faster in its action, rupees having been worked off at the rate of 100 coins per minute.

51. Like the induction balance, the machine will not discriminate between coins cast or struck from metal of similar electrical conductivities.

52. Thus the machine will not differentiate between coins struck in pure silver, in pure copper, or in any alloy of pure silver and pure copper, but it will separate from the above coins, such coins as have been alloyed with a small percentage of zinc or a small percentage of tin, or a still smaller percentage of lead or with an alloy of any or all of these metals, which metals are the most commonly employed by false coiners.

53. The machine will separate copper coin from bronze coin of approximately similar size and weight. Incidentally it also separates good from Mint defective coin such as split coin or coin containing bubbles of air, and this might in some cases be considered an imperfection but cannot be avoided and necessitates a visual examination of the spurious coin finally to determine which are spurious and which are Mint defective.

54. By the agency of this machine, and notwitstanding the fact that all remittances of uncurrent coin received into the Mint from Government treasuries should have all counterfeits eliminated before despatch to the Mint, some 950 counterfeits were detected in some 25 lakhs of uncurrent coins examined, but about 150 counterfeits escaped detection, and were discovered and eliminated later by the Mint shroffs.

55. As a general rule the machine should detect and separate out about 90 per cent. of the false coin in any remittance and in a given time should do the work of 4 or 5 shroffs.

56. The electro-magnet and small motor which revolves the feed wheel must be supplied with current from a 220 volt circuit, and absorbs about 0·01 units of current per working hour.

57. The machine should prove useful in Mints, Government Treasuries, Railways and Banks.

PLANT AND MACHINERY.

58. The additions to Plant and Machinery during the year under review were not of any importance.

The following figures show the cost of working the Power Station during the financial year under report:—

		Rs.	A.	P.
B. T. units generated	9,40,825			
Fuel Establishment and Stores		62,667	8	7
Depreciation at 5 per cent. on Plant and 3 per cent. on buildings and provision for pension		25,995	0	0
Total		88,662	8	7

59. The cost per unit works out as follows:—

Fuel, Establishment and Stores	12·7 pies per unit
Depreciation, Interest and Pension	5·3 „
Total cost per unit	18 pies or 1 anna 6 pies.

REVENUE AND EXPENDITURE.

60. *Charges levied.*—The seignorage on silver purchased for coinage amounted to Rs. 17,65,422. The revenue under this head of account was further augmented by Rs. 10,291 being the value of assay realised through the Assay Office. The pre-melting fees amounted Rs. 299.

61. *Gain on Recoinage.*—The assay benefit representing the difference between the fineness of silver as invoiced and its fineness when taken into operation amounted to Rs. 51,161, but it is a question if the assay benefit taken in respect of all purchased bar silver (*viz.*, ·5 per mille) is not on occasions too high, in which case this assay benefit figure has been swelled at the expense of the Mint loss figure.

The gain by overstandard value of uncurrent silver coins withdrawn from circulation is Rs. 2,071 against Rs. 2,837 last year.

62. *Cash and Transfer Receipts.*—The receipts amounted to Rs. 1,83,786 as compared with Rs. 1,84,704 in the previous year. That the revenue under this head has been maintained at a high figure is chiefly due to receipts on account of charges for Colonial coinages.

63. *Operative Losses.*—These items are dealt with in paragraphs 15 to 18 of this report. It should be noted, however, that the "Operative Loss", as shown in the Revenue and Expenditure Statement, excludes the gain or loss by over standard weight and fineness of the new coins coined, which appears as a separate item of account.

64. *Loss on Recoinage.*—The loss under this head of account amounts to Rs. 1,83,645 against Rs. 2,02,880 in the previous year. The decrease is due to the gradual decline in the receipts of uncurrent coin.

65. *Copper used as Alloy.*—The value of copper used for alloying silver to the standard of fineness necessary for coinage amounted to Rs. 80,289 as compared with Rs. 89,751 in the previous year.

66. *Copper and other metals used for contingent purposes.*—The expenditure amounted to Rs. 5,444 as compared with Rs. 4,642 in the previous year.

67. *Salaries and Establishment.*—The expenditure under this head of account was Rs. 4,39,016 as compared with Rs. 4,58,582 in the previous year. This expenditure is still large and is due to the continued pressure of work which necessitated the extra establishment being maintained at full strength and to payment of overtime allowances for practically the whole year.

68. *English and Local Stores.*—The total expenditure amounted to Rs. 3,78,223 against Rs. 3,27,601 in the previous year. The increase in expenditure is due to English Stores, the *demands* for which were greater this year.

69. The annual verification of Europe store balances was carried out during August 1917. The surpluses and deficiencies were investigated and adjusted in the accounts.

70. *Contingent and Transfer Charges.*—These amounted to Rs. 69,766 as compared with Rs. 64,476 in the previous year.

71. *Pro formâ Receipts and Charges.*—The receipts amounted to Rs. 3,43,539 and represented a credit of Rs. 3,26,789 for bronze coins manufactured at rates laid down in Finance Department letter No. 1966-F., dated 17th December 1914, and a credit of Rs. 16,750 for nickel 2-anna coins at 5 per cent. of the nominal value of the coins coined during the year.

The charges amounted to Rs. 3,28,924 and includes Rs. 2,94,127 the interest @ $3\frac{1}{2}$ per cent. on the bullion store balance and capital account.

72. *Balances Sunk in the Mint.*—The daily average silver balance, excluding silver held on behalf of the Currency Department, amounted to Rs. 5,50,350. The balances reached a maximum value of Rs. 17,14,497 on 1st April 1918 and declined to a minimum of Rs. 22,990 on 10th May 1917.

GENERAL.

73. During the year two dross grinding mills were removed from a room situated to the east of the bronze melting department, and re-erected in a room east of the cutting department of the silver mint. This latter room had previously been used as a store for the rich drosses from the silver mint and considerable alterations and additions had to be made in it before it was ready to receive the mills.

74. The old dross grinding room has been converted into a strong room for the storage of bronze coin boxes, and is known as vault No. 10.

75. The workshop attached to the die department has been extended by an addition of the room formerly known as vault No. 3.

This was necessary in order to permit of the installation of additional machinery to cope with the pressure of work to which the die department had been subjected for the past two years.

COUNTERFEIT COINS.

76. During the course of examination of uncurrent silver coins from treasuries the Mint eliminated during the year counterfeit rupees 2,200, $\frac{1}{2}$-Rs. 66, $\frac{1}{4}$-Rs. 212 and $\frac{1}{8}$-Rs. 357.

77. A number of counterfeit coins, generally of poor execution, were received as usual from treasuries and other offices for disposal. Details will be found in Statement IV.

OFFENCES AGAINST COINAGE.

78. The usual statement of offences against coinage is appended to this report. The total number of cases brought to trial during the calendar year 1917 was less than in the previous year. The ratio between the number of persons brought to trial and convicted was 65·7 against 61·9 of last year.

	43,13,144

(*a*) Received under special orders *vide* Controller of Currency's endorsement No. B. & R. 1202—35-17, dated the 26th June 1917.

The corrected outturn value of these coins amounted to 41,96,769 standard tolas after deduction of loss by wear and minor corrections.

4. ***Silver coinage*** :—

(*a*) The Government coinage carried out during the year consisted of rupees and half-rupees, amounting to 143,955,573 pieces. Rs. 1,99,76,789 were paid to the Reserve Treasury and Rs. 11,96,00,000 to the Paper Currency Department, Bombay, representing a silver content of 13,95,58,829 standard tolas.

(*b*) The coinage for the Egyptian Government consisted of 20, 10, 5 and 2 piastres. Up to 31st March 1918, 11,313,692 pieces were minted and 11,365,747 pieces of a silver content of 77,19,140 standard tolas were shipped to Egypt.

(*c*) For the Straits Government 551,641 twenty cents, 5,000,052 ten cents of 600 fineness and 1,099,808 ten cents of 400 fineness were manufactured within the twelve months. 650,000 twenty cents and 5,000,000 ten cents of 600 fineness of a silver content of 9,58,434 standard tolas were shipped to Singapore.

(*d*) The whole of the coinage examined by the Assay Master during the year was found to be within legal remedy for weight and fineness.

5. *Percentage of good coin.*—The percentage of good coin calculated on the amounts rolled were as follows :—

Denomination of coin.	Tolas of ingots rolled.	Percentage of good coin.
Rupees	19,56,55,242	67·86
Half-rupees	68,51,545	64·38
10 cents (600 touch)	19,97,041	58·17
" (400 ")	4,50,284	56·86
20 Piastres	23,69,530	51·08
10 "	70,25,571	53·35
5 "	48,33,712	62·50
2 "	12,01,988	57·14

6. *Silver Operative Losses.*—The loss of silver due to the operation of the Mint during the year calculated as in the past is shewn in Table A below :—

TABLE A.

	Rs.	A.	P.		Rs.	A.	P.
Opening Balance	1,19,17,163	3	8	Issues	14,82,62,090	12	0

(*a*) On the value (Rs. 13,71,63,100) of the year's coinage this gives a rate of loss of 56·86 per lakh.

(*b*) On the value (Rs. 77,12,665) of the year's coinage this gives a rate of loss of 56·86 per lakh.

(*c*) On the value (Rs. 8,63,877) of the year's coinage this gives a rate of loss of 56·84 per lakh.

A more correct statement based on the receipts and issues appearing above in the report is shown in Table B below.

TABLE B.

	Standard tolas.		Standard tolas.
Opening balance	1,19,17,163·23	Issues*	14,82,38,613·75

* This item includes in addition to the issues detailed in para. 4 above an item of 2,210 standard tolas, small miscellaneous issues.

This gives a rate of loss of 18·28 tolas per lakh of standard tolas issued or a loss of ·01828 per cent.

NICKEL.

7. The coinage of the two anna cupro-nickel piece, the punches for which were received from the Calcutta Mint, was commenced in March 1918. 1,168,000 coins of the value of Rs. 1,46,000 were coined of which Rs. 1,00,000 worth were remitted to the Reserve Treasury for issue to the public from the 1st April 1918.

The number of nickel one-anna pieces coined was 58,066,665 of the value of Rs. 36,29,167 being Rs. 11,86,224 in excess of last year's outturn. Rs. 26,80,500 worth were taken over by the Reserve Treasury, Bombay.

10 and 5 millieme pieces were also minted on behalf of the Egyptian Government. 6,228,655 of these worth Rs. 5,56,579 taking 1,000 milliemes to be the equivalent of Rs. 15-6-0 were coined and Rs. 5,75,599 issued up to 31st March 1918. The total operative loss written off during the year amounted to 51 maunds, giving a percentage of ·72 per 100 maunds of metal coined. This is higher than usual, the extra loss being accounted for by the fact that a large portion of the receipts of metal consisted of cupro-nickel scrap from the Ordnance factories. This scrap contained an appreciable amount of dirt and extraneous matter.

MISCELLANEOUS.

8. *War work.*—The Mint continued on a less degree with the manufacture of copper driving bands for shells, the building of ambulance bodies for motor cars and repairs and other miscellaneous requirements for Military Departments and the Red Cross and St. John's Ambulance.

9. *Gold work.*—The melting fees on gold tendered for assay amounted to Rs. 20,822 against Rs. 5,954 in the preceding year.

10. *Miscellaneous work.*—This included the usual supply of dies, medals, etc., the manufacture and adjustment of scales and weights and miscellaneous supplies and repairs undertaken for Government departments and the public, the profit made being Rs. 45,856.

11. *Treasure trove coins.*—During the year 68 treasure trove silver coins were received from the Bombay Branch of the Royal Asiatic Society. Coins of the metal value of Rs. 117 were sold during the year.

12. *Mint working standards.*—The weights in all the departments were periodically compared with the standards and any differences found carefully adjusted.

13. *Visitors.*—The Mint was open to the public twice a week throughout the year. Several Indian Chiefs and noblemen were among the visitors.

14. *Analysis of revenue and expenditure.*—Owing to the Nickel coinage being the largest on record the "Percentage on value of Nickel coins manufactured" and "Copper used as alloy" are largely increased. "Transfer Receipts" and "Transfer charges" also show an increase, due to large transactions with other Government Departments. The general rise in wages and the fact of the establishment being engaged throughout the year on coinage work accounts for the increase under "Extra establishment and overtime." The expenditure in 1916-17 also included larger credits on account of establishment employed on Munition work. Rs. 42,658 expended during the year on the building of a branch of the Royal Mint for the coinage of sovereigns is not included in Statement I.

15. *Resume of revenue and expenditure.*—The results of the transactions of the year as summarised in Statement No. 1 shows a gain of Rs. 18,96,300 on the year's operations.

16. *Balances sunk in the mint.*—The balances of silver bullion belonging to Government valued at one rupee per tola of standard fineness, stood at the beginning of the year at Rs. 33,243 and at its close Rs. 1,78,273. The average daily balance was Rs. 3,45,170. The minimum daily balance was Rs. 577 from the 5th April to 12th April 1917 and the maximum was Rs. 13,40,120 on the 13th August 1917.

OFFENCES AGAINST THE COINAGE.

17. *Return of counterfeit coins.*—The usual return of counterfeit coins is appended to this report:—

(*a*) 1,716 counterfeit coins (1,371 rupees, 66 half-rupees, 100 quarters, and 179 one-eighths) were received for examination during the year as against 966 in 1916-17. 294 of these were struck and the remainder castings. They were all cut and returned to the tenderers, including the railways, as they were mainly of inferior workmanship or composition.

(*b*) 992 counterfeit coins (626 rupees, 27 half-rupees, 119 quarters, and 220 one-eighths) were discovered in remittances of uncurrent coins to the Mint as against 1,429 in the previous year.

(*c*) During the year under report 37,348 counterfeit coins were cut at the treasuries and railways as against 45,982 in 1916-17.

(*d*) 135 one-anna pieces received during the year were found to be palpable cast counterfeits of lead and tin or other similar alloys.

GENERAL.

18. Mr. G. A. H. Gross, Head Melter, retired in December 1917 after a service of over 43 years in both the Calcutta and Bombay Mints. His ripe experience and willing service will be missed.

19. During a period of very considerable stress the Mint staff throughout gave their best willingly. The strain during the year under report was very severe and was intensified owing to shortage of supervision, due to some of the staff being on war service and others taking necessary leave to recuperate, and scarcity of labour, on account of recruitment for military purposes and the very busy state of all industry in Bombay.

Miscellaneous Assays.

8. Of the 94 assays under the head "Assays on Various Metals and Ores" two assays were made on counterfeit coins. The remainder were samples of nickel and copper received from the Mint Master.

Verification of Weight Pieces.

9. During the year the following Assay Office weights have been verified :—

viz., the Reference Standard Tola Set (1914).

10. Although the number of assays during the year under review is less than in 1916-17 it has been a year of hard and strenuous work for the Bombay Assay Office.

11. The post of Assay Master was held by Lieutenant-Colonel J. Lloyd Jones, I.M.S., from 1st April to 27th September 1917 and from 29th October 1917 to the end of the financial year. He went on privilege leave from 28th September to 28th October 1917. He retired from Government service on 28th April 1918. Lieutenant-Colonel F. T. Cunynghame Hughes, I.A., took charge of the office of the Assay Master, Bombay, from 28th April 1918.

12. The post of Deputy Assay Master, Bombay, was held by Major H. J. K. Wallis, I.A., from 1st April 1917 to 11th March 1918, together with the duty of Officiating Assay Master, Bombay, from 29th September to 28th October 1917. He reverted to military duty from 12th March 1918 and Lieutenant-Colonel F. T. Cunynghame Hughes, I.A., took charge of the duties of Deputy Assay Master, Bombay, on the forenoon of 3rd April 1918.

CHIEF COMMISSIONER, DELHI.

NOTIFICATIONS.

Delhi, the 13th July 1918.

No. 5185-*C. & I.*—The following draft amendments, which it is proposed to make in the rules made under section 9 of the Indian Petroleum Act, 1899, which are issued in Punjab Government Notification No. 90, dated the 15th February 1909, are published for criticism. The draft will be taken into consideration on or after the 15th of September 1918, together with any remarks or suggestions received on or before that date :—

Draft amendment.

In Chapter IV, Part II :—

(1) The following shall be added to rule 9 (1) :—

"Permanent licenses in form F may be granted, free of charge, for the possession of dangerous petroleum for use on motor vehicles and for its transport thereon for the purpose of use therein. The licenses will be subject to the condition that the owners of the vehicles shall surrender the licenses to the licensing authority if they part with the vehicles on behalf of which they are granted ".

(2) At end of rule 1 of the same chapter, *for* the full stop *substitute* a comma and *add* :—" except the licenses referred to in rule 9 (1) following ".

(3) Insert the following as condition 12 at the back of the license form F :—

" This license need not be renewed annually but the owner shall surrender the license f he parts with the motor vehicle on behalf of which the license is granted."

The 16th August 1918.

No. 6037-*C. & I.*—In exercise of the powers conferred on him by section 56 of the Punjab Excise Act, 1914 (I of 1914), and with reference to section 6, sub-section (*b*) of that Act, the Chief Commissioner is pleased to make the following amendments in the list of preparations exempted from the restrictions imposed on the import, export, transport, possession, and sale of intoxicating drugs, which was issued in this office Notification No. 4852-C. & I., dated the 22nd June 1916, as subsequently emended :—

Amendments.

(1) For item 4, the following shall be substituted :—

" Ampoules containing not more than ⅓rd grain of cocaine each in admixture with Adrenalin, Hemisine, or Epinine ".

(2) The words " when labelled by the makers as " shall be deleted in items 5 to 10 and 13.

(3) For item 14 the following shall be substituted :—

" Other preparations containing cocaine or other derivatives of coca in admixture with other drugs, containing in the aggregate not more than such quantity of cocaine hydrochloride or other derivative of coca per tablet, trochiscum, pastille, solube, sterule, enule, lamella, or fluid drachm, or so blended, as to render it impossible for any such preparation to be taken for the effects of cocaine or any other derivative of coca alone ".

The 17th August 1918.

No. 6075-*C. & I.*—In exercise of the powers conferred by section 59 of the Punjab Excise Act (I of 1914), as applied to the Delhi Province, the Chief Commissioner is pleased to prescribe the following amendment in conditions 11 and 10 of forms L-11 and L-15, respectively, published with his Notification No. 1316, dated the 25th February 1915 :—

Amendment.

Substitute ' or ' *for* ' and ' used between the words " seal and capsule ".

No. 6077-*C. & I.*—In exercise of the powers conferred by section 59 of the Punjab Excise Act (I of 1914), as applied to the Delhi Province, the Chief Commissioner is pleased to prescribe the substitution of the following condition for the condition bearing the same number in form H-26 published with his Notification No. 1949-C. & I., dated the 14th March 1917 :—

" 7. The licensee shall not hold directly or indirectly through any agent any license in a Native State for the vend of spirit, fermented liquor, or any intoxicating drug as defined in the Excise Act for the time being in force in the Delhi Province or of opium as defined in the Opium Act for the time being in force in the Delhi Province nor shall he act as the agent of any person holding such a license ".

The following is a list of the more important "General" and other maps which are available for the quarter ending 30th June 1918.

EXPLANATION.

All Maps from Surveys after 1905 called "Modern" are printed in 4 or 5 colours, i.e., water forms in blue, towns and roads in red, forests and jungle in green, cultivation in yellow, hill contours in brown with shading to emphasize the hills, and other details in black.

All Maps from Surveys prior to 1905 are printed in black only or in black with hills in brown.

All Maps on scales 1"=4 miles, $\frac{1}{1,000,000}$ or nearly 1"=16 miles and $\frac{1}{2,000,000}$ or nearly 1"=32 miles are printed in either one or two of the following editions, except those marked "Provisional Issue" which are from old surveys:—

(1) *Layered edition* printed in colours with contours and graduated layer tints to show altitudes and shading to emphasize the hills. (*Colour ribands along boundaries cannot be added to this edition.*)

(2) *Political edition,* printed in colours with colour ribands along boundaries, contours to show altitudes and shading to emphasize the hills.

(3) *Provisional issue,* generally printed in black or in black with hills in brown. Colour ribands along boundaries are added by hand when required at an extra cost of 2 annas per sheet.

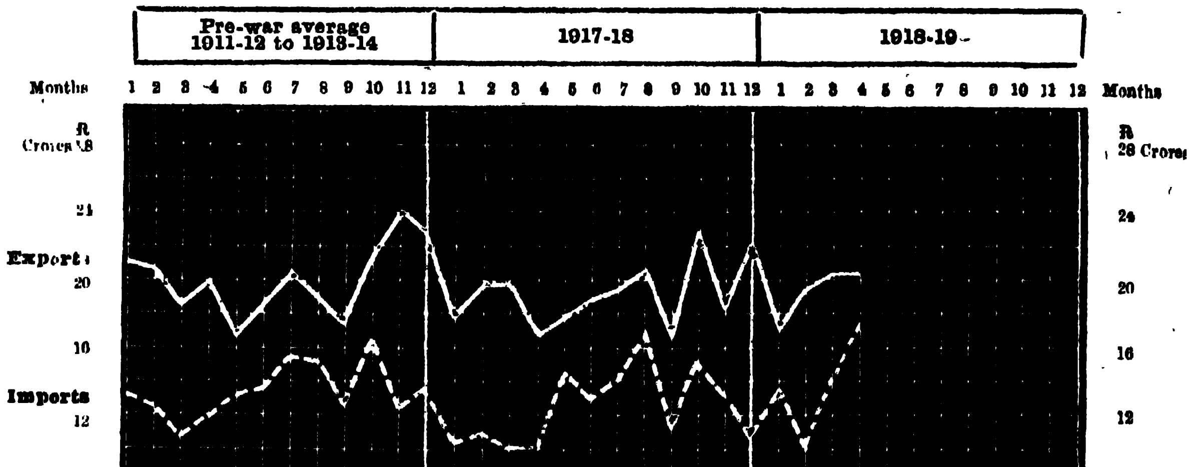
FOREIGN SEA-BORNE TRADE DURING JULY, 1918.

REVIEW of the SEA-BORNE TRADE of BRITISH INDIA for the month of JULY, 1918, and for the four months ended July, 1918.

FOREIGN COMMERCE.



FOREIGN SEA-BORNE TRADE DURING JULY, 1918.

The outstanding feature of the trade returns of July, 1918, was a considerable increase in the import trade, the value of which approximated to the record figure of January, 1914. The total imports of merchandise in July, 1918, were valued at R17½ crores as against R14 crores in the preceding month, the value of the exports was R20 crores as against R19⅔ crores, and of the re-exports was R46 lakhs as against R72 lakhs. Imports increased by 21 per cent and exports by 1 per cent, while re-exports showed a decrease of 36 per cent. As compared with July, 1917, imports showed an increase of 74 per cent, and exports of 23 per cent, while re-exports showed a decrease of 12 per cent. A review of the trade of the four months ended July, 1918, will be found on page 6.

The chart showing the course of monthly imports and exports, including re-exports, from April, 1917, to July, 1918, as compared with the pre-war average, is appended below:—

MONTHLY IMPORTS AND EXPORTS FROM APRIL, 1917, TO JULY, 1918, AS COMPARED WITH THE PRE-WAR AVERAGE.

(Private merchandise only.)

The actual net excess of exports, including re-exports, over imports was R2,90 lakhs in July, 1918, and R5,96 lakhs in June, 1918. The statement below shows the figures of imports and exports, including re-exports, during June and July of the years 1916, 1917, and 1918, and the actual net excess of exports over imports during the same periods:—

	1916		1917		1918		Actual net excess of exports over imports		
	Imports	Exports, including re-exports	Imports	Exports, including re-exports	Imports	Exports, including re-exports	1916	1917	1918

TRADE BY PROVINCES.

The total imports and exports, including re-exports, of private merchandise into and from the several maritime provinces during the month of July, 1918, as compared with those of June, 1918, are stated below :—

	IMPORTS		EXPORTS, INCLUDING RE-EXPORTS	
	June, 1918	July, 1918	June, 1918	1918
	R (lakhs)	R (lakhs)	R (lakhs)	R (lakhs)

Burma	99	90	2,40	2,85
Total	14,45	17,54	20,41	20,44

Under imports, Sind showed an increase of 159 per cent, and Bombay of 43 per cent, but Bengal showed a decrease of 8 per cent, Madras of 25 per cent, and Burma of 9 per cent. Under exports, Bengal showed an increase of 21 per cent and Madras of 12 per cent, while Bombay showed a decrease of 15 per cent, Sind of 35 per cent, and Burma of 2 per cent. These comparisons are with the preceding month (June, 1918).

BALANCE OF TRADE.

The following table takes into account the imports and exports of merchandise on private account only :—

Average rate of exchange	16 158	18·00(a)

In the four months ended July, 1918, the excess of exports over imports of private merchandise was R21,82 lakhs, as against R32,66 lakhs in the corresponding period of 1917 and R28,83 lakhs in 1914. As the publication of treasure figures has been temporarily discontinued, it is not possible to give here the net (private) exports from April to July, nor the net balance of trade in the same period. It may, however, be of interest to note that the net (private) exports are below those of 1917, but slightly higher than those of 1916. The balance of trade, so far as shown by the statistics of merchandise, treasure, Council Bills, and enfaced Rupee paper, in the four months ended July, 1918, was against India, while in the corresponding period of 1917 and 1916 it was in favour of India.

* Temporarily discontinued.
† Exclusive of Government transactions (other than articles of national importance in the case of exports)
(a) Approximate rate for Telegraphic Transfers

The amount of Council Bills and Telegraphic Transfers paid in India in the four months ended July, 1918, was R21,17 lakhs, of which R18,17 lakhs were paid through the Paper Currency Reserve and R3,00 lakhs through the Treasuries. In the four months ended July, 1917, the amount was about R22,59 lakhs, of which about R1,59 lakhs were paid through the Gold Standard Reserve, about R13,29 lakhs through the Paper Currency Reserve, and R7,71 lakhs through the Treasuries. In the four months ended July, 1916, the amount of Council Bills paid was R7,42 lakhs. As regards enfaced Rupee Paper, R7,500 represented the amount of paper enfaced to London and about R13 lakhs the amount re-transferred from London, in the four months, April to July, 1918, while in the corresponding period of 1917, R53,800 represented the amount of paper enfaced to London and over R57 lakhs the amount re-transferred from London.

DECLARED VALUE PER UNIT OF SELECTED ARTICLES.

The declared values per unit of certain selected articles imported and exported during July, 1914, 1917, and 1918, are noted below :—

As compared with the corresponding month of the previous year (July, 1917), under imports, the declared unit value of cotton twist and yarn rose in July, 1918, by 18 per cent, and of cotton piece goods, grey by 63 per cent, white by 57 per cent, and coloured by 23 per cent, while sugar fell by 3 per cent. Under exports, raw cotton showed an increase of 66 per cent, while indigo showed a decrease of 34 per cent and raw jute of 12 per cent.

The customs duty figures are an index to the volume of the import trade only, since under exports jute, rice, and tea only are subject to duty. In the four months ended July, 1918, the import duties increased to nearly R4,15 lakhs from nearly R3,31 lakhs in the four months ended July, 1917, and the export duties rose to nearly R1,20 lakhs from over R71 lakhs. The grand total of gross Indian sea and land customs revenue (excluding salt revenue) in the four months, April to July, 1918, amounted to over R5,99 lakhs, as compared with over R4,36 lakhs in the same period of last year.

RAILWAY STATISTICS.

Railway statistics, like the import and export statistics above, are a valuable index to the general movement of trade throughout the country, and show that the earnings from 1st April to 3rd August, 1918, were R29,28 lakhs, as against R26,78 lakhs in the corresponding period of 1917, or an increase of R2,50 lakhs.

TRADE OF ADEN.

The grand total value of the imports and exports of merchandise, by sea, into and from the port of Aden amounted to R1,15 lakhs in the month of June, 1918, and R3,83 lakhs in the three months, April to June, 1918. The value of the principal articles of imports and exports was as follows:—

JULY, 1918.

During the month under report, 16 companies were registered with an aggregate authorised capital of about ₹72 lakhs, as against 15 companies with an aggregate authorised capital of ₹24 lakhs in the corresponding month of the preceding year. Bengal alone accounted for 8 companies (₹47 lakhs). For the four months, April to July, 1918, the number of companies registered was 83 with an authorised capital of about ₹3,39 lakhs, as against 78 companies with ₹2,00 lakhs of authorised capital in the corresponding period of the preceding year. The largest flotation in July was that of Birla Brothers, Calcutta (₹25 lakhs).

DEPARTMENT OF STATISTICS, INDIA

CALCUTTA, AUGUST 22, 1918.

First Forecast, SESAMUM (til or jinjili) crop, 1918-19.

This forecast is based upon reports received from eight provinces, which contain, on an average, 76 per cent of the entire area under sesamum in British India. The returns in this forecast, however, exclude estimates for the United Provinces and for the late crops of Bengal and Bihar and Orissa.

A general comparison of the figures is made below with those for the corresponding period of last year. The total area so far reported amounts to 1,162,000 acres, as against 1,877,000 acres for the same tracts at this date last year, or a decrease of 38 per cent. Details of the area by provinces are as follows :—

First forecast, August

Provinces	1918-19	1917-18	Increase + or Decrease –
	Acres	Acres	Acres
United Provinces (a)	...	...	...
Central Provinces and Berar.	434,000	657,000	– 223,000
Madras	314,000	368,000	– 54,000
Bombay and Sind (including Native States).	161,000	451,000	– 290,000
Bengal	169,000	172,000	– 3,000
Bihar and Orissa	9,000	10,000	– 1,000
Punjab	75,000	210,000	– 135,000
Ajmer-Merwara	...	9,000	– 9,000
Total (b)	1,162,000	1,877,000	– 715,000

Owing to a prolonged break in the monsoon climatic conditions at sowing time have been unfavourable except in Bihar and Orissa and in parts of the Central Provinces and Berar.

The provincial reports are summarised below :—

United Provinces (**25 per cent** of the total area under sesamum in British India).—Sowings commenced in places in June, but were retarded owing to the insufficiency of rain in the latter half of June and in July. The rainfall in Bundelkhand, the principal sesamum-growing tract of the province, was greatly deficient throughout July, and no sowings were possible. Further sowings depend on the rainfall of this month, and an estimate of the area cannot, therefore, be given at present. Prospects so far are very uncertain.

Central Provinces and Berar (**16 per cent** of the total area under sesamum in British India).—The total area is at present estimated at 434,000 acres, which is 34 per cent less than the area reported at this date last year. Owing to want of sufficient moisture in the seed-bed caused by the prolonged break in July, sowings were either not effected under favourable circumstances or were retarded in parts of Saugor, Damoh, Seoni, Chhindwara, Narsinghpur, Nimar, Wardha, Mandla, Raipur, Drug, and Akola. Elsewhere the seasonal conditions at sowing time were generally good. Germination is reported to have been successful. A little resowing was, however, necessary in parts of Akola and Buldana, and some may be required in Narsinghpur and Betul. Sowings of the late crop did not begin at the date of report (8th August).

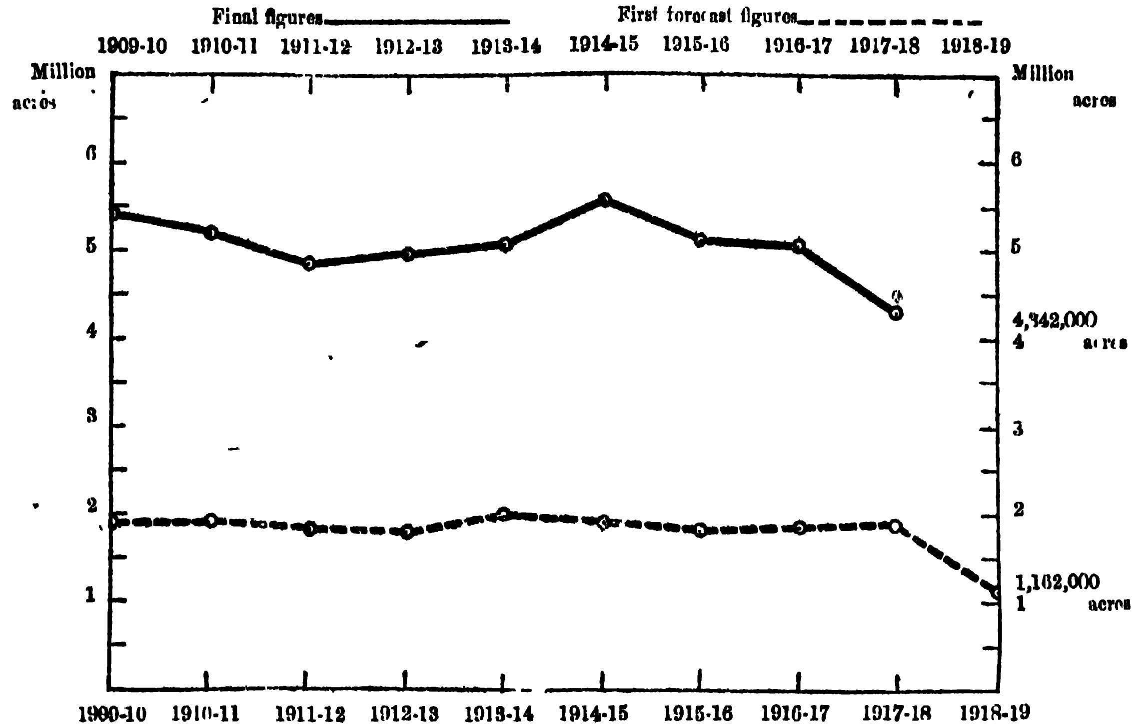
Madras (**15·8 per cent** of the total area under sesamum in British India).—The total area sown up to 1st August is estimated at 314,000 acres, which is 15 per cent below the area reported at the corresponding date of last year. The decrease is general and is due to the failure of rains in June and July. That the decrease is not more marked is due to the heavy rains received in May and to the high price of oil which induced cultivators to sow early with these rains. These early sown crops have, however, been badly hit by the subsequent failure, and their outturn will be poor.

Bombay and Sind (**6·6 per cent** of the total area under sesamum in British India).—The report relates to estimates made up to 1st August, and the information is incomplete, as sowings continued at that date. The total area reported is 161,000 acres (87,000 acres being in the Native States), which is 64 per cent below the area reported at the corresponding date of last year. Sowings were restricted everywhere through deficiency of rain in the Presidency and inadequate water supply in Sind, the decline being most marked in North Gujarat, Kathiawar, and the Poona district. In Gujarat, the condition of the crop is fair in the south, but not promising in the north owing to the absence of subsequent rains. In the Deccan and the Karnatak the crop suffered from the prolonged break after sowing, but recent rains have revived it to some extent. Its condition is fair in Khandesh, West Deccan, and parts of Dharwar and Belgaum; elsewhere it is withering. In the Konkan and in Sind the crop is in fair condition.

Bengal (**4·8 per cent** of the total area under sesamum in British India).—The area sown with the early crop is estimated at 169,000 acres, which is 2 per cent below the area reported at this date last year. Owing to drought, the season was unfavourable from sowing time till the beginning of March. Light to moderate rain during March and April improved the condition of the crop, but the excessive rain of May and June interfered with harvesting operations and caused great damage especially in the districts of Mymensingh, Dacca, Pabna, and Midnapore. The average outturn for the province is estimated at 70 per cent of the normal, which works out to 18,000 tons, against 19,000 tons reported at this time last year.

Bihar and Orissa (**4 per cent** of the total area under sesamum in British India).—The area sown with the early crop is estimated at 9,000 acres, which is 10 per cent below the area reported at the corresponding date of last year. The decrease is due to excessive rainfall in Sambalpur in the beginning of the season. The weather conditions were generally favourable and the prospects of the crop are reported to be fair. The average outturn for the province is estimated at 90 per cent of the normal, giving a total yield of 1,300 tons, as against 1,600 tons last year.

Punjab (**3·5 per cent** of the total area under sesamum in British India).—The total area sown



(a) The estimated acreage is not reported until October in each year.
(b) Excluding the United Provinces.

is at present estimated at 75,000 acres, which is 64 per cent below the area reported at this date last year. There was no rain beyond a few light showers at the time of sowing in June and July. Sowings still continue in some districts; but if the present drought continues there is little likelihood of any considerable amount of additional area being sown. The condition of the standing crop is generally below average, and it is apprehended that much of it will perish if the rain holds off for any considerable length of time.

Ajmer-Merwara (**0·8 per cent** of the total area under sesamum in British India).—No sowings have yet been made this year on account of the absence of rains. The area sown at this time last year was 9,000 acres.

Chart.—The chart below illustrates the variations in the preliminary estimates of the last ten years as compared with those in the final estimates. The preliminary figures exclude the United Provinces, which do not, as already noted, make any estimate in the first forecast.

CALCUTTA, AUGUST 20, 1918.

First SUGARCANE Forecast, 1918-19.

This forecast is based on reports received from provinces, which contain, on an average, 99 per cent of the total area under sugarcane in British India. Madras has for the first time prepared a forecast in August.

The total area planted is estimated at 2,550,000 acres, which is practically the same as the corresponding estimate of last year (2,552,000 acres).*

Seasonal conditions at sowing time were not quite favourable in the important cane-growing provinces, and owing to the holding off of the rains the prospects of the crop are still uncertain in the greater part of the United Provinces, which contain more than half the cane area of British India. Rain is badly wanted in the Punjab. Elsewhere prospects are generally good.

The detailed figures for the provinces are as follows :—

First Forecast, August.

North-West Frontier Province	31,000	30,000	+1,000
Central Provinces and Berar	28,000	24,000	+4,000
TOTAL	2,550,000	2,552,000	—2,000

The provincial reports are summarised below :—

United Provinces (53 per cent of the total area under sugarcane in British India).—On the basis of reports received from selected landlords, the area planted is estimated at 1,325,000 acres, as against 1,342,000 acres estimated at this time last year, or a decrease of 1 per cent. The season in the early months of the year was not favourable for the sowing of the crop, there being little rain in March or April. Sowings were consequently restricted in Rohilkhand and Oudh, although there was an extension in the canal districts. The rainfall in May was somewhat above normal in the sub-montane districts, but elsewhere it was slight. Throughout June and July the rainfall was greatly deficient, especially in the Doab districts. Some rain has recently been received in the Gorakhpur and Benares divisions, and this has improved the condition of the crop in these tracts. Over the rest of the provinces prospects are uncertain owing to the holding off of the rains.

Punjab (15·6 per cent of the total area under sugarcane in British India).—The area is estimated at 471,000 acres, which is about 6 per cent above the estimate made at this time last year. Owing to the late arrival of winter rains conditions were not favourable for the preparation of lands, but a fairly extensive though light rainfall was received at the time of sowing in March and April. Sowings were further stimulated by high prices fetched by the crop last year. There was practically no rain after sowing. The condition of the unirrigated crop is below average, and that of the irrigated crop generally average. Rain is almost everywhere badly wanted.

Bihar and Orissa (11 per cent of the total area under sugarcane in British India).—The area planted is estimated at 277,000 acres, which is 4 per cent above the area reported at this time last year. The weather conditions have been favourable except in Cuttack and Puri, where excessive rain and floods in June somewhat affected the crop. The present condition of the crop is reported to be generally good, and the average outturn for the province, as a whole, is estimated at 101 per cent of the normal.

Bengal (9·2 per cent of the total area under sugarcane in British India).—The area is estimated at 218,000 acres as against 209,000 acres reported at this time last year, or an increase of 4 per cent. Although excessive rainfall in June retarded the growth of the crop to some extent, the season, on the whole, has been favourable, and the present condition of the crop is quite satisfactory.

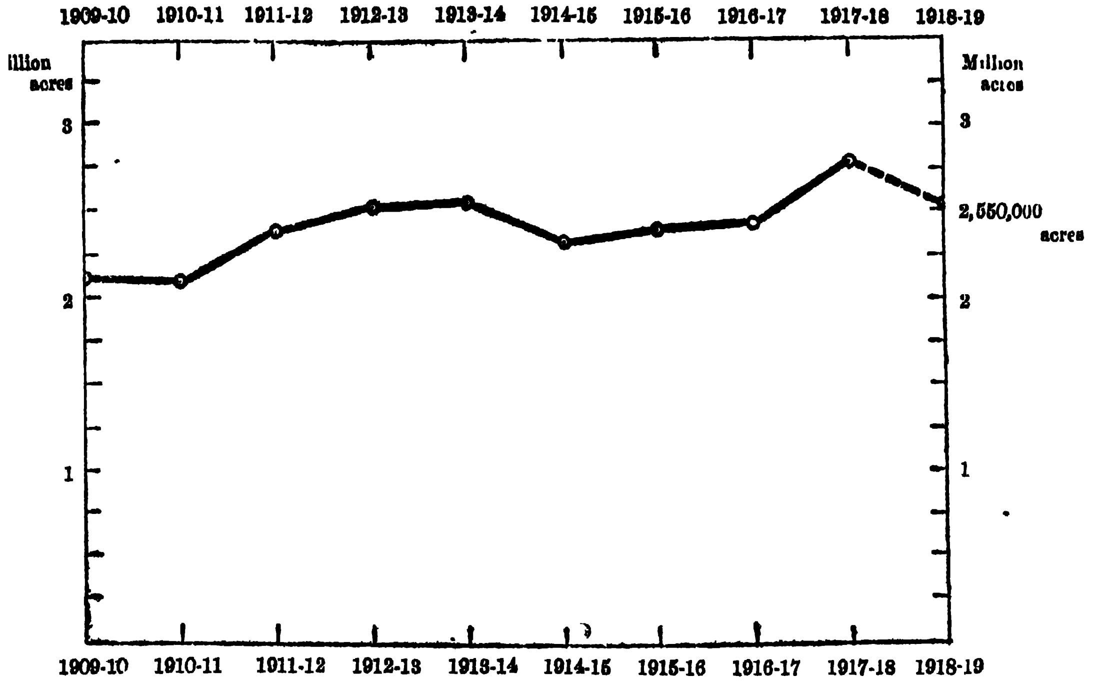
Madras (3·8 per cent of the total area under sugarcane in British India).—The total area sown up to the 1st August is estimated at 83,000 acres. This is the first time that a sugarcane forecast has been prepared by Madras in August, and consequently no corresponding estimate of the preceding year is available for comparison. Sowings are still going on in some places. There has, however, probably been a real diminution of the area under cane owing to the general unfavourable character of the season.

Bombay and Sind (2·8 per cent of the total area under sugarcane in British India).—The information received (up to 1st August) is incomplete. The area so far reported comes to 85,000 acres (38,000 acres being in the Native States), which is about 8 per cent below the corresponding estimate of last year. The decrease is only apparent, and is due to the non-receipt of complete information. Owing to the plentiful late rains of last year, water supply was ample at sowing time. The crop suffered in places from drought, but at present it is doing fairly well everywhere.

Assam (1·5 per cent of the total area under sugarcane in British India).—The area is estimated at 32,000 acres as against 34,000 acres reported at this time last year, or a decrease of 6 per cent. The rainfall was generally deficient during the planting season, and excessive soon after.

North-West Frontier Province (1·3 per cent of the total area under sugarcane in British India).—The area is estimated at 31,000 acres as against 30,000 acres, the corresponding estimate of last year, or an increase of 3 per cent.

Central Provinces and Berar (0·9 per cent of the total area under sugarcane in British India).—The area is estimated at 28,000 acres, which is 17 per cent larger than the corresponding estimate of last year



* Including the October estimate for Madras.

† As reported in October forecast. This is the first time that Madras has prepared the August forecast.

Climatic conditions at sowing time were generally favourable, and germination was everywhere successful. Prospects of the crop at present are reported to be satisfactory.

Chart.—The chart below shows the preliminary estimate of area now made with the final figures of the preceding nine years.

AREA OF SUGARCANE
(In million acres)

Sugarcane crop in foreign countries.—From the latest information published by the International Institute of Agriculture, Rome, it appears that in Cuba the rains in March were propitious for the preparatory work of sowing, which was in progress in the greater part of the productive zone. In Egypt the preparation of the soil and the planting of the new crop are in full swing. Owing to the restriction of the cotton area, that under sugarcane is expected to considerably exceed the area of last year.

From unofficial sources it appears that in Louisiana (United States of America) the condition of the cane crop is good, and warm weather is helping its development. In Australia the crop has been greatly damaged by cyclone, and there is every reason to anticipate that it will, as a whole, be much smaller than that of last year, which was a record. In Cuba the appearance of the crop is reported to be very good. The Hawaiian crop is said to be making slow progress on account of cold and cloudy weather.

POST OFFICE.

No. 8359.

The 19th August, 1918.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

In the Resolution No. 4675-4722-51, dated the 26th June 1911, as modified in the case of the Burma circle by Resolution No. 4635-P. & T., dated the 26th April 1917, the Government of India decided which days should ordinarily be observed as additional Post Office holidays, and directed that in all circles, except Madras and Burma for which special lists were drawn up, *Id-uz-Zuha* should be observed instead of *Muharram* as it was held to be the more important of the two festivals.

2. It has, however, recently been represented that the tenth day of *Muharram* should be added to the list, and, after consulting local Governments and commercial bodies, the Government of India have now decided that, with effect from this year, the tenth day of *Muharram* shall be added to the list of additional Post Office holidays in all circles.

ORDERED that a copy of this Resolution be forwarded to all Local Governments and Administrations, to all Chambers of Commerce and Trades Associations, to all Departments of the Government of India and to the Director General of Posts and Telegraphs.

Ordered also that it be published in the *Gazette of India.*

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 17th August 1918.

Burma.—The rainfall during the week was general throughout the Province. The fall was heavy in Arakan and Tenasserim littorals and good elsewhere in Lower Burma. In the dry zone it was light to moderate Cultivation of the winter rice crop is proceeding normally in Lower Burma and in Irrigated tracts and the wet zone districts of Upper Burma. Agricultural operations for the cultivation of miscellaneous and dry crops continue in Upper Burma. Standing crops are generally in good condition in Lower Burma, and poor to fair in Upper Burma. Cattle are healthy. The price of unhusked rice has risen further but is still below normal. The market for white rice is steady at Rs. 275 per hundred baskets for specials.

Assam.—The weather during the week was seasonable Floods are gradually subsiding in the Surma Valley but are again rising in the Brahmaputra Harvesting of autumn rice and jute, manufacture of tea and ploughing for and transplanting of winter rice continue. Prospects of crops are generally fair to good Cattle disease is reported from six districts. The price of common rice rose slightly

Bengal.—During the week seasonable rain fell throughout the Province, improving prospects of standing crops and facilitating the transplantation of winter paddy Harvesting of autumn paddy and cutting and steeping of jute are progressing briskly. water level in eastern Bengal is again rising slowly The condition and prospects of the unharvested autumn paddy and jute are fair on the whole The price of common rice rose by about 2 6 per cent.

Bihar and Orissa.—The rainfall during the week was general over the Province, the fall being heavy in Orissa and light to moderate in the rest of the Province Transplantation of paddy is in progress More rain is, however, wanted in parts of Orissa and Chota Nagpur Harvesting of jute is going on Standing crops are, on the whole, doing well The price of common rice has risen in ten districts, fallen in one and remained stationary in the remaining districts as compared with that of the preceding week Cattle disease is reported from thirteen districts. The condition of standing crops in the Feudatory States of Orissa is good. More rain is, however, wanted in some States for transplantation of paddy.

United Provinces.—During the week light rain was general throughout the Provinces. Good and general rain was received in most districts since the close of the week but more rain is still needed. Damage to unirrigated autumn crops is reported in all districts in the west and centre of the Provinces. Sowing of the late autumn crops, irrigation of autumn crops and sugarcane, transplantation of rice and preparation of land for spring crops continue. Prospects of the late autumn crops and of fodder are now favourable but depend on future rains. Agricultural stock is in fairly good condition but cattle disease continues to be reported from parts of some districts. Water and market supplies are generally sufficient. Fodder is deficient in parts but the recent rain will improve its condition. Prices are rising.

Punjab.—The rainfall during the week was fairly heavy in the southeast and in the submontane tracts and light or nil elsewhere. It was beneficial for standing crops and for sowings but more rain is badly wanted everywhere. Sowings of autumn crops continue and are below normal to normal. The condition of standing crops is average to good on irrigated areas, but those on unirrigated areas are suffering for want of rain. Cattle are generally healthy but shortage of fodder is reported from a few districts. Prices show an upward tendency and range generally between warning and scarcity rates. Price of wheat:—Rawalpindi 6¾, Lahore 7½, Ambala 7¾ and Ferozepore and Lyallpur 8 seers per rupee.

North-West Frontier Province.—Slight rain has fallen in one district. More rain continues to be badly wanted. The condition of standing crops is average and sowing of autumn crops is proceeding normally. Harvesting prospects are average but in the Peshawar and Bannu districts they are below average on unirrigated areas. Prices are rising. Wheat sells in Peshawar at 8¼ and in Dera Ismail Khan at 9 seers per rupee.

Jammu.—The rainfall during the week was general. Prices are stationary.

Kashmir.—The week was generally dry and hot. Standing crops badly want rain. Cattle are dying of disease in Muzaffarabad. Prices are high.

Rajputana.—Report not received.

Central India.—The rainfall during the week was general but insufficient. Autumn crops are being sown and weeded. Land is being prepared for spring crops in Bhopal and in the Southern States. Standing crops are in fair condition except in Malwa and Gwalior where they are bad or indifferent. Crops have been damaged in Baghelkhand, Bundelkhand and Malwa for want of rain. Agricultural stock is in fair to good condition except in Gwalior where its condition is bad in certain districts. Scarcity of fodder prevails almost everywhere. Prices are high.

Central Provinces.—The weather during the week has been warm with occasional clouds. Balaghat and Bilaspur each received heavy rain amounting to 6¼ inches. Akola had only 62 cents. In the remaining districts moderate rain fell and it was generally well distributed. More rain is, however, required in Damoh and Buldana. Sowings are still in progress in Jubbulpore, Mandla, Seoni, Narsinghpur, Hoshangabad, Raipur and the Vindhyan districts. Germination is everywhere successful. Transplantation and thinning of rice and weeding are well advanced. Standing crops are generally in good condition and prospects are generally quite favourable. Deficiency of fodder still exists in parts of Saugor, Hoshangabad, Nimar, Akola and Buldana. Cattle are generally doing well. Labouring classes in Sironcha are reported to be in bad condition. Rice rose by 2¼ seers per rupee in Drug and by 1½ seers per rupee in Wardha. Other variations in prices are unimportant but there is in all districts a pronounced upward tendency.

Feudatory States:—Light to moderate rain fell in the States. The condition of crops is generally good.

Bombay.—Good rain fell during the week in parts of Savantvadi, Thana, Nasik, Satara, Kolhapur and Belgaum. Very slight rain was received in Gujarat and Kathiawar and slight to fair elsewhere in the Presidency Proper. More rain is urgently needed almost in all districts. Sowing has been retarded in parts of Ahmedabad, the Panch Mahals, Kanara and East Deccan. Transplantation continues in parts of the Konkan, Poona and Belgaum. Standing crops have been damaged slightly by insects in parts of the Panch Mahals and are withering in parts of Gujarat, the Deccan, the Karnatak, Kathiawar, Baroda, and Rewa Kantha. The fodder supply is deficient in parts of the same areas. Agricultural stock is generally sufficient but cattle are deteriorating in parts of Ahmedabad, the Panch Mahals, Kaira, and Rewa Kantha. Prices of food grains have risen slightly in parts of the Deccan and the Karnatak and are generally steady elsewhere.

Hyderabad.—The rainfall during the week was good in four districts and fair to light elsewhere. The average fall was 0·78 inch. Autumn crops are withering for want of rain in five districts and are fair to good elsewhere. The early rice crop is in fair to good condition. Sowings continue. Lands for the sowing of spring crops are under preparation. Cattle are healthy but emaciated. Want of fodder is felt in some districts. Prices of grains continue high. *Juar* is selling at 8¼ seers per rupee in Gulbarga.

Mysore.—The week was slightly wet except in two districts where the rainfall was heavy. Ploughing and sowing operations are progressing. Standing crops are improving but more rain is wanted. Cattle are generally healthy. Prices are generally rising.

Coorg.—The week was generally rainy. Transplanting of rice continues. Cattle disease prevails in some villages. Water and fodder are sufficient. The public health is fair. Prices of food grains are high.

Madras.—The rainfall during the week was normal in the Circars and the Deccan and on the West Coast and the Hills. It was below normal elsewhere. Standing crops are in fair to good condition generally. Harvesting of paddy, sugarcane and dry crops is proceeding with outturn fair to normal generally. Sowings of paddy, sugarcane and dry crops are proceeding normally. The condition of cattle is generally good. Water continues to be insufficient in the greater portion of the Presidency. Prices except that of *cumbu* are showing a tendency to rise.

* Includes previous weeks. The actual number of cases and deaths during the week ending August 17, were 51 and 60 respectively.

There were 1,358 deaths attributed to plague in the week under report as compared with 4,724 in the corresponding week of 1917. The almost complete absence of plague from the Punjab, the United Provinces, Bihar, and the Central Provinces, is extremely satisfactory.

The incidence of the disease in the Bombay Presidency, which contributed 767 of the total 1,358 deaths, is also comparatively low. The mean August plague mortality in the Bombay Presidency during the last twenty years amounts to 260 deaths per day.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 24th August 1918.

Burma.—The rainfall during the week was general throughout the Province. The fall was heavy in Lower Burma particularly on the Arakan and Tenasserim coasts. In the dry zone it was light to moderate. Cultivation of winter rice is proceeding satisfactorily in Lower Burma and in irrigated tracts of Upper Burma. Cultivation of late sesamum, *juar*, gram, chillies and peas and in reaping of early sesamum in Upper Burma are proceeding. Standing crops are generally in good condition in Lower Burma but poor to fair in Upper Burma. Livestock is healthy. The price of unhusked rice has risen further and is now Rs. 6 below normal. The market for white rice is quiet at Rs. 275 per hundred baskets for specials.

Assam.—The weather during the week was wet and seasonable. Manufacture of tea, harvesting of autumn rice and jute and transplantation of winter rice continue. Prospects of crops are fair. Cattle disease is reported from six districts. The price of common rice is rising seasonably.

Bengal.—Moderate to heavy rain fell throughout the Province. Transplantation of winter paddy and harvesting of autumn paddy and jute continue. Rivers have again risen very high in Eastern Bengal, causing further damage to jute. Damage to winter rice is also apprehended. The average price of common rice has risen by about 7 per cent.

Bihar and Orissa.—The rainfall during the week was general over the Province, the fall being heavy in parts of the Patna, Bhagalpur and Chota Nagpur divisions and light to moderate in the rest of the Province. Transplantation of paddy is in progress but more rain is wanted for the purpose in parts of three districts in Orissa. Harvesting of jute continues. Standing crops are, on the whole, doing well. The price of common rice has risen in nine districts, fallen in three and remained stationary in the remaining districts as compared with that of the preceding week. Cattle disease is reported from twelve districts. The condition of standing crops in the Feudatory States of Orissa is good. More rain is, however, wanted in some States for the transplantation of paddy.

United Provinces.—During the week good and general rain was received throughout the Provinces except in the Sitapur and Kheri districts. The fall has greatly benefited the standing crops that survived the drought and has improved agricultural prospects which are now reported to be generally favourable everywhere. Sowing of the late autumn crops, irrigation of autumn crops and sugarcane, preparation of land for spring crops and transplantation of late rice continue. Harvesting of autumn crops has commenced in places. Agricultural stock is in good condition but slight cattle disease is still prevalent in parts of some districts. Fodder is dear or scarce in places but the recent rain will generally improve pasture. Water and market supplies are ample. Prices are fluctuating.

Punjab.—During the week moderate to fairly heavy rain has fallen nearly all over the Province and proved beneficial to standing crops and sowings. More rain is badly wanted in the west. Autumn crops are being sown. The area sown is below normal to normal. Standing crops are average to good on irrigated and below average to average on unirrigated areas. Cattle are generally healthy and water is sufficient. Shortage of fodder is, however, reported from parts of a few districts. Prices are generally stationary and range between warning and scarcity rates. Price of wheat :—Rawalpindi 6¾, Ambala and Lahore 7¾, Lyallpur 8¼ and Ferozepore 8¼ seers per rupee.

North-West Frontier Province.—During the week good rain has fallen except in parts of the Peshawar and Dera Ismail Khan districts where it is still urgently required. Sowings of autumn crops are proceeding normally. Harvesting prospects are average on irrigated and below average on unirrigated areas. Prices are rising. Wheat is selling in Peshawar at $8\frac{1}{16}$ seers and in Dera Ismail Khan at 8¼ seers per rupee.

Jammu.—The rainfall during the week was general. Prices are stationary.

Kashmir.—Report not received.

Rajputana.—Report not received.

Central India.—The rainfall during the week was partial and insufficient in Gwalior and Malwa. Autumn crops are being sown and weeded. Land is being prepared for spring crops in Indore, Bhopal and the Southern States. Standing crops are fair except in Gwalior where they are bad or indifferent. Crops have been damaged in Bundelkhand for want of rain. The condition of agricultural stock is fair to good except in Gwalior where it is bad and where scarcity of fodder and water continues and in Sailana where cattle are dying. Scarcity of fodder also prevails in Malwa. Prices are high.

Central Provinces.—The weather has been cloudy with occasional showers of rain. Amraoti was rainless but Jubbulpore and Mandla had 7 and 5 inches respectively. Elsewhere light to moderate showers were received. Buldana alone needs more rain. Sowings of autumn crops are still in progress in the northern districts. Transplantation, weeding and thinning of rice and preparation of land for spring crops continue. The condition and prospects of standing crops are generally quite good. Agricultural stock is in good condition except in parts of Raipur and Yeotmal where cattle disease prevails. Fodder is scarce in Nimar and dear in Akola but pasturage is sufficient everywhere. To meet the distress in Sironcha works are being extended. A kitchen has been opened and gratuitous relief started. Rice fell in Drug and rose in Akola by 1¼ seers per rupee. Other variations are unimportant and irregular.

Feudatory States:—There was enough rain in the States where crops are in good condition.

Bombay.—Good rain fell during the week in parts of Kolhapur, Savantvadi, the Konkan, Surat, Nasik, Satara, and Belgaum and slight to fair elsewhere in the Presidency Proper. More rain is urgently needed almost in all districts except in the Konkan. Sowing has been retarded in parts of Ahmedabad and Sholapur and has been resumed in parts of Gujarat, the Karnatak, West Khandesh, Poona, Baroda, Cutch and Rewa Kantha. Transplantation continues in the coastal tracts and in Poona. Standing crops are withering in parts of Nasik, Ahmednagar, Bijapur, Kathiawar, and Mahi Kantha. The fodder supply is deficient in several districts and in Native States, especially in Gujarat. Agricultural stock is generally sufficient but cattle are in bad condition in parts of the north Gujarat. Prices of food grains have risen slightly in the Karnatak and are generally steady elsewhere.

Hyderabad.—The rainfall during the week was poor in parts of five districts and fair to good elsewhere. The average fall was 1 inch 32 cents. Autumn crops are withering for want of rain in parts of five districts and are fair to good elsewhere. Early rice is being sown and the crop is in fair to good condition. Lands for spring crops are being prepared. Cattle are generally healthy. Fodder is scarce in some districts. Prices of grains are high. *Juar* is selling at 8¼ seers per rupee in the Bir, Gulbarga and Bidar districts.

Mysore.—The week was slightly wet except in two districts where the rainfall was good. Ploughing and sowing operations are in progress. Standing crops are improving but more rain is wanted. Cattle are generally healthy. Prices are fluctuating.

Coorg.—Moderate rain fell during the week. Transplantation of rice continues. Cattle disease prevails in some villages. Water and fodder are sufficient. The public health is fair. Prices of food grains are high.

Madras.—The week was rainy on the West Coast and on the Hills and generally showery elsewhere. Standing crops are in fair to good condition generally. Harvesting of paddy, sugarcane and dry crops is proceeding with outturn fair to normal. Sowings of paddy, sugarcane and dry crops are proceeding. The condition of cattle is generally good. Water continues to be insufficient in the greater portion of the Presidency. Prices are showing a tendency to rise.

All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at Simla and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette* and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*.

J. P. HEWETT,

Secretary to the Government of India."

NOTICES.

THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2. *Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. These should be consulted before an application is made to the Controller.

3. *Advice.* **The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India applications should be made to the patent offices in the countries concerned.**

4. *Fees* are payable in *cash* and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

5. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with *pictures, photographs, etc.*, for which copyright is obtainable under the Indian Copyright Act, 1914.

6. *Printed Specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—
